Protect your organization with up to 70X greater efficiency with Quantum!

Quantum DXi-Series Backup Appliances are the industry’s most efficient backup data management platform, combining flexible, easy-to-deploy solutions and key features to protect your entire enterprise securely and efficiently. DXi Edge-Core-Cloud bundles include:

- DXi virtual and physical backup appliances for storing and protecting all your backup data
- Industry-leading data reduction for fast and efficient backup and recovery
- Bundled replication and cloud tiering for easy offsite protection
- Secure offlining of your backups to protect and recover from ransomware attacks

Let’s talk about how we can help you both reduce risks to your data and optimize the efficiency of your backup environment. Contact us at www.quantum.com/dxi#Contact.

**Realized rates will vary depending on the specific data and workload characteristics. Based on internal field data of actual customer deployments, data reduction rates can be as high as 70X.*

Quantum technology, software, and services provide the solutions that today’s organizations need to make video and other unstructured data smarter – so their data works for them and not the other way around. With over 40 years of innovation, Quantum’s end-to-end platform is uniquely equipped to orchestrate, protect, and enrich data across its lifecycle, providing enhanced intelligence and actionable insights. Leading organizations in cloud services, entertainment, government, research, education, transportation, and enterprise IT trust Quantum to bring their data to life, because data makes life better, safer, and smarter. Quantum is listed on Nasdaq (QMCO) and the Russell 2000® Index. For more information visit www.quantum.com.
