## Top 10 causes of death in older people and years lived with disability

Rank	Causes of death	Causes of years of healthy life lost due to disability
1	Cardiovascular diseases	Sense organ diseases
2	Stroke	Musculoskeletal diseases
3	Respiratory diseases	Cardiovascular diseases
4	Ischaemic heart disease	Respiratory diseases
5	Malignant neoplasms	Other hearing loss
6	Haemorrhagic stroke	Chronic obstructive pulmonary disease
7	Chronic obstructive pulmonary disease	Stroke
8	Ischaemic stroke	Mental and substance use disorders
9	Trachea, bronchus, lung cancers	Back and neck pain
10	Neurological conditions	Ischaemic stroke

Data source: WHO - Global Health Estimates (GHE) (2019)

## Integrated Care for Older People

### Prevalence and incidence of common health conditions

Age Groups	Hearing loss*	Blindness and vision impairment*	Low back pain*	Falls**
60-64	55%	35%	16%	582
65-69	64%	44%	18%	581
70-74	73%	53%	20%	566
75-79	83%	60%	22%	872
80-84	86%	67%	26%	1432
85-89	83%	72%	27%	1831
90-94	81%	76%	26%	2306
95+	81%	82%	27%	2779

## National commitments

Focal point on ageing and health in the ministry of health	No Response
National plans, policies or strategies on ageing and health	No Response
National multi-stakeholder forum or committee on ageing and health	No Response
National legislation and enforcement strategies against age-based discrimination	No Response
National legislation/regulations that provide older adults with access to assistive devices from the WHO Priority Assistive Product List	No Response
National programme to support activities in line with the WHO global Network for Age-friendly Cities and Communities	No Response
National policies in place to support comprehensive assessments of the health and social care needs for older people	No Response
Long-term care policy/plan/strategy/framework (stand-alone or integrated within an ageing and health plan)	No Response
Cross-sectional nationally representative, publicly available and anonymous individual level data on older persons and their health status and needs	No Response
Longitudinal nationally representative surveys (cohort) on older persons and their status and needs	No Response
Policy, legislation, strategy, or programme to support combating ageism	No Response
Human rights mechanisms dedicated to the promotion and protection of the rights of older persons	No Response
Specific legal, administrative, or other effective remedies to older persons who have been subject to discrimination	No Response
Contributing to the UN-Open ended working group on ageing	No Response
Implemented actions to support income generation activities for older persons	No Response
Provide out-patient-service free of charge in the public sector for older persons	No Response
Provide assistive devices and technologies free of charge in the public sector for older persons	No Response
Provide pharmaceutical products and/or other medical supplies free of charge in the public sector for older persons	No Response
Capacity-building plans to strengthen the geriatric and gerontology workforce	No Response
National guidelines for organizing geriatric care and training	No Response
National competency frameworks for geriatrics care workers	No Response
Programmes (in-person or online) available for caregivers of older persons	No Response
Policy, legislation, strategy, or programme to support the integration of palliative care services into the structure and financing of national healthcare systems at all levels of care	No Response
Availability of resources (human and finance) to implement actions on ageism	No Response
Availability of resources (human and finance) to implement actions on age-friendly environment	No Response
Availability of resources (human and finance) to implement actions on integration care for older persons	No Response
Availability of resources (human and finance) to implement actions on long-term care for older persons	No Response
