

Enhance your Azure purchasing experience

Simpler purchasing, improved billing, easy management

Buying Azure from a Microsoft sales representative through the Microsoft Customer Agreement offers new capabilities that can help you achieve more through your digital transformation.

Simplified purchasing with **fast and fully automated** access to Azure

- ✓ A single, short agreement that doesn't expire, and can be digitally signed
- ✓ Complete a purchase and start using Azure right away
- ✓ No upfront costs required with pay-as-you-go billing for most services used
- ✓ Buy only what you need when you need it *and* negotiate commitments when desired

Improved billing experience with **intuitive invoices**

- ✓ Intuitive invoice layout displays charges in an easy-to-read format, making expenditures easier to understand
- ✓ Easily organize costs by teams, projects, departments, or any other way you need
- ✓ Receive as many invoices as you need to better track your costs

Management, deployment, and optimization tools in a **single portal**

- ✓ Manage all your Azure purchases through a single, unified portal on Azure.com
- ✓ Centrally control user authorizations in a single place with a single set of roles
- ✓ Integrated cost-management capabilities give enterprise-grade insights into usage with recommendations on how to save
