3. Within each Member State, the single liaison office shall be responsible for coordinating the investigation and enforcement activities of the competent authorities, other public authorities referred to in Article 6 and, if applicable, designated bodies, in relation to infringements covered by this Regulation.
4. Member States shall ensure that competent authorities and single liaison offices have the necessary resources for the application of this Regulation, including sufficient budgetary and other resources, expertise, procedures and other arrangements.
5. Where there is more than one competent authority in their territory, Member States shall ensure that the respective duties of those competent authorities are clearly defined and that they collaborate closely in order to discharge those duties effectively.

*Article 7***Role of designated bodies**

1. Where applicable, a competent authority ('instructing authority') may, in accordance with its national law, instruct a designated body to gather the necessary information regarding an infringement covered by this Regulation or to take the necessary enforcement measures available to it under national law, in order to bring about the cessation or prohibition of that infringement. The instructing authority shall only instruct a designated body if, after consulting the applicant authority or the other competent authorities concerned by the infringement covered by this Regulation, both the applicant authority and requested authority, or all competent authorities concerned, agree that the designated body is likely to obtain the necessary information or to bring about the cessation or the prohibition of the infringement in a manner that is at least as efficient and effective as the instructing authority would have done.
2. If the applicant authority or the other competent authorities concerned by an infringement covered by this Regulation are of the view that the conditions set out in paragraph 1 have not been fulfilled, they shall inform the instructing authority in writing without delay, setting out the reasons justifying that view. If the instructing authority does not share that view, it may refer the matter to the Commission, which shall issue an opinion on the matter without delay.
3. The instructing authority shall continue to be obliged to gather the necessary information or to take the necessary enforcement measures if:
  - (a) the designated body fails to obtain the necessary information or to bring about the cessation or prohibition of the infringement covered by this Regulation without delay; or
  - (b) the competent authorities concerned by an infringement covered by this Regulation do not agree that the designated body may be instructed pursuant to paragraph 1.

*Article 9***Minimum powers of competent authorities**

1. Each competent authority shall have the minimum investigation and enforcement powers set out in paragraphs 3, 4, 6 and 7 of this Article that are necessary for the application of this Regulation and shall exercise those powers in accordance with Article 10.

2. Notwithstanding paragraph 1, Member States may decide not to confer all the powers on every competent authority, provided that each of those powers can be exercised effectively and as necessary in relation to any infringement covered by this Regulation in accordance with Article 10.

3. Competent authorities shall have at least the following investigation powers:

- (a) the power of access to any relevant documents, data or information related to an infringement covered by this Regulation, in any form or format and irrespective of their storage medium, or the place where, they are stored;
- (b) the power to require any public authority, body or agency within their Member State or any natural person or legal person to provide any relevant information, data or documents, in any form or format and irrespective of their storage medium, or the place where they are stored, for the purposes of establishing whether an infringement covered by this Regulation has occurred or is occurring, and for the purposes of establishing the details of such infringement, including tracing financial and data flows, ascertaining the identity of persons involved in financial and data flows, and ascertaining bank account information and ownership of websites;

**▼B**

- (c) the power to carry out necessary on-site inspections, including the power to enter any premises, land or means of transport that the trader concerned by the inspection uses for purposes related to his trade, business, craft or profession, or to request other public authorities to do so, in order to examine, seize, take or obtain copies of information, data or documents, irrespective of their storage medium; the power to seize any information, data or documents for a necessary period and to the extent necessary for the inspection; the power to request any representative or member of the staff of the trader concerned by the inspection to give explanations of facts, information, data or documents relating to the subject matter of the inspection and to record the answers;
  - (d) the power to purchase goods or services as test purchases, where necessary, under a cover identity, in order to detect infringements covered by this Regulation and to obtain evidence, including the power to inspect, observe, study, disassemble or test goods or services.
4. Competent authorities shall have at least the following enforcement powers:
- (a) the power to adopt interim measures to avoid the risk of serious harm to the collective interests of consumers;

- (h) the power to impose penalties, such as fines or periodic penalty payments, for infringements covered by this Regulation and for the failure to comply with any decision, order, interim measure, trader's commitment or other measure adopted pursuant to this Regulation.

The penalties referred to in point (h) shall be effective, proportionate and dissuasive, in accordance with the requirements of Union laws that protect consumers' interests. In particular, due regard shall be given, as appropriate, to the nature, gravity and duration of the infringement in question.

5. The power to impose penalties, such as fines or periodic penalty payments, for infringements covered by this Regulation applies to any infringement of Union laws that protect consumers' interests, where the relevant Union legal act listed in the Annex provides for penalties. This is without prejudice to the power of national authorities under national law to impose penalties, such as administrative or other fines, or periodic penalty payments, in cases where the Union legal acts listed in the Annex do not provide for penalties.

6. Competent authorities shall have the power to start investigations or proceedings on their own initiative to bring about the cessation or prohibition of infringements covered by this Regulation.

7. Competent authorities may publish any final decision, trader's commitments or orders adopted pursuant to this Regulation, including the publication of the identity of the trader responsible for an infringement covered by this Regulation.

8. Where applicable, competent authorities may consult consumer organisations, trader associations, designated bodies or other persons concerned, regarding the effectiveness of the proposed commitments in bringing the infringement covered by this Regulation to an end.

#### **Exercise of minimum powers**

1. The powers set out in Article 9 shall be exercised either:

2. The implementation and the exercise of powers set out in Article 9 in application of this Regulation shall be proportionate and shall comply with Union and national law, including with applicable procedural safeguards and with the principles of the Charter of Fundamental Rights of the European Union. The investigation and enforcement measures adopted in application of this Regulation shall be appropriate to the nature and the overall actual or potential harm of the infringement of Union laws that protect consumers' interests.

## CHAPTER III

## MUTUAL ASSISTANCE MECHANISM

*Article 11***Requests for information**

1. At the request of an applicant authority, a requested authority shall, without delay, and in any event within 30 days unless otherwise agreed, provide to the applicant authority any relevant information necessary to establish whether an intra-Union infringement has occurred or is occurring, and to bring about the cessation of that infringement.
2. The requested authority shall undertake the appropriate and necessary investigations or take any other necessary or appropriate measures in order to gather the required information. If necessary, those investigations shall be carried out with the assistance of other public authorities or designated bodies.
3. On request from the applicant authority, the requested authority may allow officials of the applicant authority to accompany the officials of the requested authority in the course of their investigations.

*Article 12***Requests for enforcement measures**

1. At the request of an applicant authority, a requested authority shall take all necessary and proportionate enforcement measures to bring about the cessation or prohibition of the intra-Union infringement by exercising the powers set out in Article 9 and any additional powers granted to it under national law. The requested authority shall determine the appropriate enforcement measures needed to bring about the cessation or prohibition of the intra-Union infringement and shall take them without delay and not later than 6 months after receiving the request, unless it provides specific reasons for extending that period. Where appropriate, the requested authority shall impose penalties, such as fines or periodic penalty payments, on the trader responsible for the intra-Union infringement. The requested authority may receive from the

**▼B**

trader, on the trader's initiative, additional remedial commitments for the benefit of consumers that have been affected by the alleged intra-Union infringement, or, where appropriate, may seek to obtain commitments from the trader to offer adequate remedies to consumers that have been affected by that infringement.

2. The requested authority shall regularly inform the applicant authority about the steps and measures taken and the steps and measures that it intends to take. The requested authority shall use the electronic database provided for in Article 35 to notify without delay the applicant authority, the competent authorities of other Member States and the Commission of the measures taken and the effect of those measures on the intra-Union infringement, including the following:

- (a) whether interim measures have been imposed;
- (b) whether the infringement has ceased;
- (c) which measures have been adopted, and whether those measures have been implemented;
- (d) the extent to which consumers affected by the alleged infringement have been offered remedial commitments.

*Article 13***Procedure for requests for mutual assistance**

1. When making a request for mutual assistance, the applicant authority shall provide the information necessary to enable the requested authority to fulfil that request, including any necessary evidence which can only be obtained in the Member State of the applicant authority.

2. The applicant authority shall send such requests for mutual assistance to the single liaison office of the Member State of the requested authority and to the single liaison office of the Member State of the applicant authority for information. The single liaison office of the Member State of the requested authority shall pass the requests on to the appropriate competent authority without delay.

3. Requests for mutual assistance and all communications linked to them shall be made in writing using standard forms and shall be communicated electronically via the electronic database provided for in Article 35.

4. The competent authorities concerned shall agree on the languages to be used for requests for mutual assistance and for all communications linked to them.

5. If no agreement about languages can be reached, requests for mutual assistance shall be sent in the official language, or one of the official languages, of the Member State of the applicant authority and replies in the official language, or one of the official languages, of the Member State of the requested authority. In that case, each competent authority shall be responsible for the necessary translations of the requests, replies and other documents that it receives from another competent authority.

**▼B**

6. The requested authority shall reply directly both to the applicant authority and to the single liaison offices of the Member States of the applicant authority and of the requested authority.

*Article 14***Refusal to comply with a request for mutual assistance**

1. A requested authority may refuse to comply with a request for information under Article 11 if one or more of the following applies:

- (a) following a consultation with the applicant authority, it appears that the information requested is not needed by the applicant authority to establish whether an intra-Union infringement has occurred or is occurring, or to establish whether there is a reasonable suspicion that it may occur;
- (b) the applicant authority does not agree that the information is subject to the rules on confidentiality and on professional and commercial secrecy laid down in Article 33;
- (c) criminal investigations or judicial proceedings have already been initiated against the same trader in respect of the same intra-Union infringement before the judicial authorities in the Member State of the requested authority or of the applicant authority.

2. A requested authority may refuse to comply with a request for enforcement measures under Article 12 if, having consulted with the applicant authority, one or more of the following applies:

- (a) criminal investigations or judicial proceedings have already been initiated, or there is a judgment, a court settlement or a judicial order in respect of the same intra-Union infringement and against the same trader before the judicial authorities in the Member State of the requested authority;
- (b) the exercise of the necessary enforcement powers has already been initiated, or an administrative decision has already been adopted in respect of the same intra-Union infringement and against the same trader in the Member State of the requested authority in order to bring about the swift and effective cessation or prohibition of the intra-Union infringement;
- (c) following an appropriate investigation, the requested authority concludes that no intra-Union infringement has occurred;
- (d) the requested authority concludes that the applicant authority has not provided the information that is necessary in accordance with Article 13(1);
- (e) the requested authority has accepted commitments proposed by the trader to cease the intra-Union infringement within a set time limit and that time limit has not yet passed.

However, the requested authority shall comply with the request for enforcement measures under Article 12 if the trader fails to implement accepted commitments within the time limit referred to in point (e) of the first subparagraph.

**▼B**

3. The requested authority shall inform the applicant authority and the Commission of any refusal to comply with a request for mutual assistance, together with the reasons for that refusal.
4. In the event of a disagreement between the applicant authority and the requested authority, either the applicant authority or the requested authority may refer the matter to the Commission, which shall issue an opinion on the matter without delay. Where the matter has not been referred to the Commission, the Commission may nevertheless issue an opinion on its own initiative. For the purpose of issuing that opinion, the Commission may ask for relevant information and documents that have been exchanged between the applicant authority and the requested authority.
5. The Commission shall monitor the functioning of the mutual assistance mechanism and the compliance of competent authorities with the procedures and the time limits for handling requests for mutual assistance. The Commission shall have access to the requests for mutual assistance and to the information and documents that have been exchanged between the applicant authority and requested authority.
6. Where appropriate, the Commission may issue guidance and provide advice to the Member States to ensure the effective and efficient functioning of the mutual assistance mechanism.

## CHAPTER IV

**COORDINATED INVESTIGATION AND ENFORCEMENT  
MECHANISMS FOR WIDESPREAD INFRINGEMENTS AND FOR  
WIDESPREAD INFRINGEMENTS WITH A UNION DIMENSION***Article 15***Procedure for decisions amongst Member States**

For matters covered by this Chapter, the competent authorities concerned shall act by consensus.

*Article 16***General principles of cooperation**

1. Where there is a reasonable suspicion that a widespread infringement or widespread infringement with a Union dimension is taking place, competent authorities concerned by that infringement and the Commission shall inform each other and the single liaison offices concerned by that infringement without delay, by issuing alerts pursuant to Article 26.
2. The competent authorities concerned by the widespread infringement or widespread infringement with a Union dimension shall coordinate the investigation and enforcement measures that they take to address those infringements. They shall exchange all necessary evidence and information and provide each other and the Commission with any necessary assistance without delay.
3. The competent authorities concerned by the widespread infringement or widespread infringement with a Union dimension shall ensure that all necessary evidence and information are gathered, and that all necessary enforcement measures are taken to bring about the cessation or prohibition of that infringement.

**▼B**

4. Without prejudice to paragraph 2, this Regulation shall not affect national investigation and enforcement activities carried out by competent authorities in respect of the same infringement by the same trader.

5. Where appropriate, the competent authorities may invite Commission officials and other accompanying persons, who have been authorised by the Commission, to participate in the coordinated investigations, enforcement actions and other measures covered by this Chapter.

*Article 17***Launch of coordinated action and designation of the coordinator**

1. Where there is a reasonable suspicion of a widespread infringement, the competent authorities concerned by that infringement shall launch a coordinated action which shall be based on an agreement between them. The launch of the coordinated action shall be notified to the single liaison offices concerned by that infringement and to the Commission, without delay.

2. The competent authorities concerned by the suspected widespread infringement shall designate one competent authority concerned by the suspected widespread infringement to be the coordinator. If those competent authorities are unable to reach agreement on that designation, the Commission shall take the role of coordinator.

3. If the Commission has a reasonable suspicion of a widespread infringement with a Union dimension, it shall without delay notify the competent authorities and the single liaison offices concerned by that alleged infringement pursuant to Article 26. The Commission shall state in the notification the grounds which justify a possible coordinated action. The competent authorities concerned by the alleged widespread infringement with a Union dimension shall conduct appropriate investigations on the basis of information that is available or easily accessible to them. The competent authorities concerned by the alleged widespread infringement with a Union dimension shall notify the results of such investigations to the other competent authorities, the single liaison offices concerned by that infringement and the Commission pursuant to Article 26, within 1 month from the date of the Commission's notification. Where such investigations reveal that a widespread infringement with a Union dimension might be taking place, the competent authorities concerned by that infringement shall start with the coordinated action and shall take the measures set out in Article 19 as well as, where appropriate, the measures set out in Articles 20 and 21.

4. The coordinated actions referred to in paragraph 3 shall be coordinated by the Commission.

5. A competent authority shall join the coordinated action, if it becomes apparent during that coordinated action that the competent authority is concerned by the widespread infringement or the widespread infringement with a Union dimension.

*Article 18***Reasons for declining to take part in the coordinated action**

1. A competent authority may decline to take part in a coordinated action for any of the following reasons:

**▼B**

- (a) in respect of the same trader, a criminal investigation or judicial proceedings have already been initiated, a judgement has been given, or a court settlement has been reached, concerning the same infringement in that competent authority's Member State;
- (b) the exercise of the necessary enforcement powers has already been initiated before the issuing of an alert referred to in Article 17(3), or an administrative decision has been adopted against the same trader in respect of the same infringement in that competent authority's Member State in order to bring about the swift and effective cessation or prohibition of the widespread infringement or widespread infringement with a Union dimension;
- (c) following an appropriate investigation, it is apparent that the actual or potential impact of the alleged widespread infringement or widespread infringement with a Union dimension in that competent authority's Member State is negligible and therefore no enforcement measures need to be adopted by that competent authority;
- (d) the relevant widespread infringement or the widespread infringement with a Union dimension has not occurred in that competent authority's Member State and therefore no enforcement measures need to be adopted by that competent authority;
- (e) the competent authority has accepted commitments proposed by the trader responsible for the widespread infringement or widespread infringement with a Union dimension to cease that infringement in that competent authority's Member State and those commitments have been implemented, and therefore no enforcement measures need to be adopted by that competent authority.

2. Where a competent authority declines to take part in the coordinated action, it shall inform the Commission and the other competent authorities and single liaison offices concerned by the widespread infringement or widespread infringement with a Union dimension about its decision without delay, stating the reasons for its decision and providing any necessary supporting documents.

*Article 19***Investigation measures in coordinated actions**

1. The competent authorities concerned by the coordinated action shall ensure that investigations and inspections are conducted in an effective, efficient and coordinated manner. They shall seek, simultaneously with one another, to conduct investigations and inspections and, to the extent that national procedural law so allows, to apply interim measures.

2. The mutual assistance mechanism pursuant to Chapter III may be used if it is needed, in particular to gather necessary evidence and other information from Member States other than the Member States concerned by the coordinated action or to ensure that the trader concerned does not circumvent enforcement measures.

3. Where appropriate, the competent authorities concerned by the coordinated action shall set out the outcome of the investigation and the assessment of the widespread infringement or, where applicable, the widespread infringement with a Union dimension in a common position agreed upon among themselves.

**▼B**

4. Unless otherwise agreed between the competent authorities concerned by the coordinated action, the coordinator shall communicate the common position to the trader responsible for the widespread infringement or the widespread infringement with a Union dimension. The trader responsible for the widespread infringement or the widespread infringement with a Union dimension shall be given the opportunity to be heard on the matters forming part of the common position.

5. Where appropriate, and without prejudice to Article 15 or to the rules on confidentiality and on professional and commercial secrecy laid down in Article 33, the competent authorities concerned by the coordinated action shall decide to publish the common position or parts thereof on their websites, and may seek the views of consumer organisations, trader associations and other parties concerned. The Commission shall publish the common position or parts thereof on its website with the agreement of the competent authorities concerned.

*Article 20***Commitments in coordinated actions**

1. On the basis of a common position adopted pursuant to Article 19(3), the competent authorities concerned by the coordinated action may invite the trader responsible for the widespread infringement or the widespread infringement with a Union dimension to propose within a set time limit commitments to cease that infringement. The trader may also, on his own initiative, propose commitments to cease that infringement or offer remedial commitments to consumers that have been affected by that infringement.

2. Where appropriate and without prejudice to the rules on confidentiality and on professional and commercial secrecy laid down in Article 33, the competent authorities concerned by the coordinated action, may publish the commitments proposed by the trader responsible for the widespread infringement or the widespread infringement with a Union dimension on their websites or, if appropriate, the Commission may publish the commitments proposed by that trader on its website if so requested by the competent authorities concerned. Competent authorities and the Commission may seek the views of consumer organisations, trader associations and other parties concerned.

3. The competent authorities concerned by the coordinated action shall assess the proposed commitments and communicate the outcome of the assessment to the trader responsible for the widespread infringement or the widespread infringement with a Union dimension, and, where applicable, if remedial commitments have been offered by the trader, they shall inform consumers that claim that they have suffered harm as a consequence of that infringement. Where commitments are proportionate and are sufficient to bring about the cessation of the widespread infringement or the widespread infringement with a Union dimension, the competent authorities shall accept those commitments and set a time limit within which the commitments have to be implemented.

4. The competent authorities concerned by the coordinated action shall monitor the implementation of the commitments. *Article 21***Enforcement measures in coordinated actions**

1. The competent authorities concerned by the coordinated action shall take within their jurisdiction all necessary enforcement measures against the trader responsible for the widespread infringement or the widespread infringement with a Union dimension to bring about the cessation or prohibition of that infringement.

Where appropriate, they shall impose penalties, such as fines or periodic penalty payments, on the trader responsible for the widespread infringement or the widespread infringement with a Union dimension. The competent authorities may receive from the trader, on the trader's initiative, additional remedial commitments for the benefit of consumers that have been affected by the alleged widespread infringement or the alleged widespread infringement with a Union dimension, or, where appropriate, may seek to obtain commitments from the trader to offer adequate remedies to the consumers that have been affected by that infringement.

Enforcement measures are in particular appropriate where:

- (a) an immediate enforcement action is necessary to bring about the swift and effective cessation or prohibition of the infringement;
- (b) it is unlikely that the infringement will cease as a result of the commitments proposed by the trader responsible for the infringement;
- (c) the trader responsible for the infringement has not proposed commitments before the expiry of a time limit set by the competent authorities concerned;

- (e) the trader responsible for the infringement has failed to implement the commitments to cease the infringement or, where appropriate, to provide a remedy to consumers harmed by the infringement, within the time limit referred to in Article 20(3).

2. Enforcement measures pursuant to paragraph 1 shall be taken in an effective, efficient and coordinated manner to bring about the cessation or prohibition of the widespread infringement or the widespread infringement with a Union dimension. The competent authorities concerned by the coordinated action shall seek to take enforcement measures simultaneously in the Member States concerned by that infringement.

**▼B***Article 22***Closure of the coordinated actions**

1. The coordinated action shall be closed if the competent authorities concerned by the coordinated action conclude that the widespread infringement or widespread infringement with a Union dimension has ceased or has been prohibited in all Member States concerned, or that no such infringement was committed.
2. The coordinator shall notify the Commission and, where applicable, the competent authorities and the single liaison offices of the Member States concerned by the coordinated action of the closure of the coordinated action without delay.

  - (g) coordinate requests for mutual assistance submitted by the competent authorities concerned pursuant to Chapter III.
2. The coordinator shall not be held responsible for the actions or the omissions of the competent authorities concerned when they make use of the powers set out in Article 9.

2. If no agreement can be reached between the competent authorities concerned, notifications and other communications shall be sent in the official language or one of the official languages of the Member State making the notification or other communication. In that case, if necessary, each competent authority concerned shall be responsible for translating the notifications, communications and other documents that it receives from other competent authorities.

*Article 25***Language arrangements for communication with traders**

Those competent authorities of other Member States and the Commission shall reply to the request without delay.

The Commission shall remove the relevant information from the database without delay, and shall inform the parties of the reasons for that removal.

The data relating to an infringement shall be stored in the electronic database for no longer than is necessary for the purposes for which they were collected and processed, but shall not be stored for longer than 5 years following the day on which:
