

# FIRST STEPS: PURCHASING A HEAT PUMP

1

## ASSESS YOUR NEEDS

Get an energy audit to identify insulation and air sealing improvements for better comfort, energy savings, and a smaller, cheaper heat pump.

2

## CONDUCT WEATHERIZATION WORK

Weatherize your house to optimize your utility cost savings and the efficiency of clean heat appliances. Check EmPOWER incentives.

3

## RESEARCH REBATES AND INCENTIVES

Find which ones are available for you with the ENERGY STAR rebate finder tool.

4

## SET YOUR BUDGET

Determine how much you're willing to spend, including installation costs. Consider rebates and incentives.

5

## GET MULTIPLE QUOTES

Obtain quotes from several contractors. Compare prices, warranties, and included services.

6

## SCHEDULE INSTALLATION

Once selecting a contractor, schedule the installation. Ensure you understand the timeline and what to expect.
