Re: Certification
Area 1, Phase 1 Detailed Development Plan
Exelon Office Tower, Trading Floor Garage,
and Central Plaza Garage
Former Allied-Signal, Inc. Baltimore Works (new Harbor Point)
Baltimore, Maryland
MRCE File 11822

I, Peter Deming, a licensed professional Engineer in the State of Maryland, working as Partner of the firm Mueser Rutledge Consulting Engineers, certify that to the best of my knowledge and in my professional opinion (except to those portions identified in the paragraph below) the designs set forth in the August, 2013 Detailed Design Plan and Engineering Evaluation submissions for the Exelon Office Tower, Trading Floor Garage, and Central Plaza Garage, meet the Consent Decree requirements as stated below.

As to those portions of this submission for which I cannot professionally attest (environmental construction controls and environmental management controls), I have reviewed the Consent Decree requirements and the planned work and practices, and note that those documents were prepared by licensed Professional Engineers working for the firm Environmental Resources Management (ERM), with the full intent to meet the Consent Decree requirements stated below.

Certification

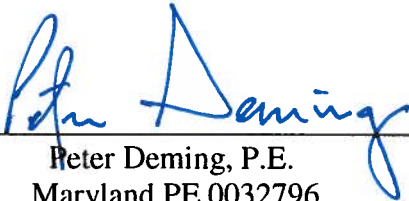

Pursuant to the Consent Decree by and between the United States Environmental Protection Agency, the Maryland Department of the Environment and Allied-Signal Baltimore Works, as amended, Article V, Paragraph 16, I certify on behalf of Honeywell International Inc. that the improvements shown in the enclosed Detailed Design Plan documents will not:

- (a) Interfere with the efficacy of the corrective measures or Honeywell's ability to comply with the Performance Standards, the Groundwater Gradient Monitoring Plan, the Surface Water Monitoring Plan, the Environmental Media Monitoring Plan, and the Surface Soil Monitoring Plan, or any other monitoring plan in effect.

- (b) Increase risks to health or the environment from the conditions at the site.
