

Professional development workshop designed for existing CBLPs and professionals working along the shoreline who want to add Living Shoreline Services to their business offerings. Attend all workshop days, complete assignments and an installation practicum to earn the certificate.

Includes webinars, field workshops, and videos presented by experienced professionals.

Register at www.cblpro.org

CBLP-Shorelines focuses on site assessment, planning & design, permitting, constructing, and maintaining living shoreline projects that meet VA's General Permit 1 or 2 or MD's Category A requirements.

Emphasizing hands-on & experiential learning, course materials are delivered over four days through presentations, in class activities, and homework assignments.

Training Dates

Norfolk, VA

Online: July 11 & 31

In person: July 17-18

West River, MD
