1 A '0' baseline value shows that the indicator tracks the EU Refugee Support contribution therefore, no baseline value is required; 'tbc': to be confirmed. This means that the baseline, if available, will be confirmed subsequently.

2 Target: 'tbc': to be confirmed. This means that the target will be confirmed/established subsequently. The target values contained in the RF are based on the latest data contained in SUMAF's DMS. These will be updated as and when updated logframes for the relevant projects are approved and entered into DMS.

3 No target established due to complexity of influencing factors.

4 One survey is conducted approximately every two years.

5 Under SIHHAT I, the SIHHAT survey did not cover non-Syrian refugees.
