

# XC2-B

COMPACT PISTOL LIGHT

300 LUMENS

45 MINUTES

65 METERS

REFLECTOR

## DESCRIPTION

The XC2-B is SureFire's laser-equipped, concealed carry handgun WeaponLight, and is available with a high-visibility green laser in addition to the venerable red laser option. The XC2-B allows concealed-carry users an effective way of identifying threats and acquiring targets. Whether you choose the green or red laser option, the laser is easily visible, allowing you to get on target quickly without using your sights. Once zeroed, the laser rarely needs re-zeroing, thanks to a proven windage and elevation adjustable laser carriage and a robust rail clamp mount that will not shift under the effects of recoil. It delivers 300-lumens from a single rechargeable AAA battery, and its proprietary precision-engineered smooth parabolic reflector projects a beam with a focused hot spot for mid-to-long range illumination along with a corona of diffused light optimized for situational awareness in the near field. Ambidextrous switching provides both momentary- and constant-on activation options. We've constructed the XC2-B's robust, compact body of lightweight, strong aerospace aluminum, then Mil-Spec hard anodized and sealed it to repel the elements. Measuring less than 2.5 inches long and weighing just 2 ounces, the XC2-B provides a crucial advantage you need if you should face a threat in low-light conditions

## FEATURES

- Lightweight and ultra-compact; great for concealed carry
- Rail clamp mount securely attaches to most Universal and Picatinny accessory rails
- Powered by one energy dense rechargeable AAA NiMH battery
- Battery is front loaded so the XC2 does not need to be removed when depleted which eliminates re-zeroing after battery changes
- Integrated ambidextrous momentary and constant-on switching
- Quickly tap and release either toggle switch for constant on activation; to turn off, simply tap and release either toggle
- Press and hold either toggle switch for momentary activation and release to turn off
- Mil-Spec hard-anodized aluminum body and tempered window make it light rugged and durable
- Mode selector switch features a light & laser mode and a laser only mode
- Battery cap is tethered to the body to prevent separation in the field

### SPECIFICATIONS

	XC2-B-RD/GN
COLOR	Black
OUTPUT	300 lumens GN Laser: <0.5 mW (515 nm) RD Laser: <0.5 mW (635 nm)
RUNTIME	45 minutes
PEAK BEAM INTENSITY	1,064 candela
BEAM DISTANCE	65 meters
CONSTRUCTION	Aluminum
FINISH	Hard Anodized (MIL-A-8625 Type III, Class 2)
WEIGHT (w/batteries)	2.2 oz (63 g)
LENGTH	2.5 in (6.35 cm)
BEZEL DIAMETER	.375 in (.95 cm)
BATTERIES	1xAAA*
SWITCHING	Ambidextrous toggle switches
LIQUID INGRESS PROTECTION	IPX7 (1 meter/30 minutes)

All performance claims tested to ANSI/NEMA FL1-2019 Standard.

\*runtime and output will be reduced when using a lithium or alkaline battery
