passes also include access to the show floor during set-up and move-out for current exhibiting companies.

- (10) Job postings on the SIGGRAPH Recruitment website, which includes access to the Resume Database

Access the recruitment website and resume database

A sample form and link to submit job postings will be shared in early June.

To gain the most exposure, be sure to have your postings completed by 23, June. In early July, you'll receive login information for the Resume Database, where you can view, search and download resumes, complete with contact information. That'll give you the jump start you need to plan interviews and meetings during the event.

Display Guidelines

Consider your space size (5' x 10') when planning what to bring and what to do in your booth.

- Fixtures, components, and identification signs are permitted up to a maximum height of 8'3" along the back wall.
- Display fixtures are permitted up to a maximum height of 4' along the sides of your space. If you're

planning to bring a cabinet (for example) and set it up along the side of the booth, be sure to cover the back if it's less than visually desirable. And remember that your signs/branding must face into your booth and not into a neighboring company's space

- Your literature, pop-up signs, monitors, and branded tablecloths are encouraged.
