

OECD CONTRIBUTION TO STI FOR SDG ROADMAPS

17 Nov 2020

OECD foundational resources

Knowledge base for country diagnostics

- EC-OECD knowledge infrastructure
- Information on 6,000 policy initiatives worldwide
- Information is semantically linked to other resources, incl. statistics, publications, Twitter, etc.
- Interactive dashboards, open APIs for anyone to download / link the dataset

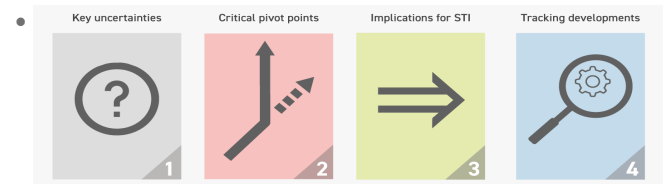

STIPCOMPASS
INTERNATIONAL DATABASE ON STI POLICIES

<http://stip.oecd.org>

A framework for systematically exploring future developments

- Roadmapping requires projection and ongoing monitoring of trends and key uncertainties
- The latest OECD STI Outlook includes a framework for systematically exploring and monitoring key uncertainties that are likely to shape STI over the next decade
