

Questions for a Virus

Viruses like the coronavirus, the cold virus, and the flu virus can live in our bodies. They are so small you need a microscope to see them! Color this virus any way you like. What kind of virus is it? What questions would you like to ask it? A grown-up can help you write your questions around the picture (or on the other side of this page). You might ask: “Why are you here?” “Where do you come from?” “Why do you not like soap?” and so on. Find out the answers together.
