

The Radiological and Medical Physics Society of New York RAMPS 1948 - 2019

The Earliest Organization of Medical Physicists in the United States

History of RAMPS

During the mid 1940's, physicists associated with medical institutions in the metropolitan New York City region commenced meetings to compare instrumentation and their measurements of the quantity of radioactivity in solutions in medical use. This was necessary for uniformity, and also for accuracy since the national standard available appeared to be inconsistent. This was just prior to the availability of megavoltage x rays and electrons, and the primary concern of the physicists was associated with the uses of radioactive nuclides. The clinical uses of iodine-131 and other radionuclides (phosphorus-32, yttrium-90, etc.) were being actively explored and agreement on the amount of activity being administered was essential. Such measurements led to the "New York Millicurie," which served a vital

By 1948 the meetings of these medical physicists were on a scheduled basis with elected officers and records. Those initially active in RAMPS included Mones Berman, Hanson Blatz, Carl Braestrup, Giacchino Failla, Sergei Feitelberg, Elizabeth Focht, Hiram Hart, Lillian Jacobson, Robert Loevinger, Leo Marinelli, Eleanor Oshry, Edith Quimby, Edward Siegel, Aaron Yalow, Rosalyn Yalow, and others. This group established the measurement procedure for the "New York Millicurie," and their meetings served both scientific and professional functions. A constitution was written in 1954 by R. Yalow and J. Laughlin, and revised in 1957 by them. RAMPS has continued to grow from its modest beginning to a current membership of about 150 and conducts monthly meetings which are well attended. Their meetings usually include scientific presentations by a member or guest on physical aspects of treatment, diagnosis, nuclear medicine, or protection. Also, a symposium on a pertinent scientific topic is held annually. RAMPS welcomed the initiation of the AAPM and became a chapter in it.

From J. S. Laughlin and P. N. Goodwin: History of the AAPM 1958-1998, Medical Physics 25(7, part 2): 1240-1241; 1998. Reproduced here with the permission of the AAPM

American Association of Physicists in Medicine was established 10 years later

RAMPS Presidents

John	Laughlin	
Robert	Schulz	1968
Hiram	Hart	1969
Colin	Orton	1971
Gerald	Shapiro	1973
Jean	St. Germain	1974
Morris	Hodara	1975
Harry	Astarita	1976
Salvatore	Vacirca	1977
Paul	Goodwin	1978
Lawrence	Rothenberg	1979
Christopher	Marshall	1980
Mortimer	Heller	1981
Bun	Chan	1982
Arthur	Olson	1983
Maynard	High	1984
James	Summers	1985
Alan	Schoenfeld	1986
Robert	Barish	1987
Mary Ellen	Masterson	1988
Edward	Nickoloff	1989
Mark	Belanich	1990
Susan	Barish-Brownie	1991
Yakov	Pipman	1992
Doracy	Fontenla	1993
Gerald	Kutcher	1994
Richard	Riley	1995
J. Keith	DeWyngaert	1996
James	Galvin	1997
C. Clifton	Ling	1998
Ceferino	Obcemea	1999
Lowell	Anderson	2000
Stephen	Balter	2001
Mark	Belanich	2002
John	Humm	2003
J. Keith	DeWyngaert	2004
Yeh Chi	Lo	2005
Eugene	Lief	2006-07
Gig	Mageras	2008
Chandra	Burman	2009
Cheng-Shie	Wuu	2010
Jenghwa	Chang	2011
Albert	Sabbas	2012
Michael	Lovelock	2013
Gil'ad	Cohen	2014
Cesar	Della Biancia	2015
Thomas	Petrone	2016
Ziad	Saleh	2017

John Laughlin became the President of AAPM

Rosalyn Yalow, Founding Member of RAMPS and Charter Member of AAPM, eceived the 1977 Nobel Prize for hysiology or Medicine

In 1968, in order to assist the training of residents in the various radiological physics specialties, RAMPS appointed a committee to prepare an examination on radiological physics. This examination was administered on a voluntary basis to radiological residents in the New York City area at a session held at the New York Academy of Medicine with the cooperation of the New York Roentgen Ray Society. The response was so enthusiastic that this examination has become an annual event. It is now being used throughout the United States through the courtesy of RAMPS and of the AAPM. In recent years, separate examinations for Diagnostic Radiology and Radiation Oncology have been produced. Teaching has always been an important activity of the medical physicist in his/her institution and the establishment of this examination procedure was a method of assisting the education of residents in the physical aspects of radiology.

RAMPS Membership

AAPM Officers from RAMPS

President		
John S.	Laughlin	1965
Lawrence N.	Rothenberg	1998
Howard I.	Amols	2005
Secretary		
Jean M.	St.Germain	1985

55th Anniversary of the Failla Memorial lecture

RAMPS, in conjunction with the Greater New York Chapter of the Health Physics Society holds the Annual Failla Lecture. The lecturer is an internationally known expert on Medical Physics and/or Radiation Protection. This year's lecture presented by Stephen Balter marked the 54th Anniversary of the Failla lecture, which honors the memory of Dr. Failla, a Medical Physics pioneer. Other Failla lecturers over the past 10 years are:

Stephen Musolino, Ph.D 2018
Jjohn Humm, Ph. D. 2017
Craig Yoder, Ph. D. 2016
Stephen Balter, Ph. D. 2015
Isabel Fisenne, Ph. D. 2014

David Rogers, Ph. D. 2013

Antone L. Brooks, Ph.D. 2012

rees at the 2012 lecture, left to right, Francis J see Rothenberg, C. Clifton Ling, Jean St. Ger

RAMPS VACIRCA YOUNG INVESTIGATOR SYMPOSIUM

Each year RAMPS conducts a Young Investigators Symposium named in honor of Salvatore Vacirca, a past RAMPS President. Young Investigators are encouraged to submit abstracts for the competition. The speaker judged to have made the best presentation is provided funding to attend an AAPM

national meeting. I	Recent winners are		
1st Place	2nd Place	3rd Place	Year
Peter Klages*	Paul Black [†]	Lei Zhang*	2018
