## T00.01 Overview

(EUR billions; percentages; number of institutions)

Main figures	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021
<b>Number of SIs</b>					
Full sample	112	110	112	114	114
Liquidity sample <sup>1)</sup>	112	110	112	114	114
<b>Balance sheet composition</b>					
Total assets	24,430.69	24,357.08	24,193.20	25,218.05	25,296.33
Total liabilities	22,914.68	22,835.86	22,659.40	23,655.17	23,711.78
Equity	1,516.01	1,521.22	1,533.81	1,562.88	1,584.54
<b>Key indicators</b>					
Return on equity	0.01%	2.12%	1.53%	7.21%	6.92%
Cost-to-income ratio	67.61%	65.50%	66.03%	64.68%	64.86%
Cost of risk	0.70%	0.64%	0.67%	0.64%	0.52%
<b>Capital adequacy and leverage</b>					
CET 1 ratio <sup>2)</sup>	14.89%	15.20%	15.65%	15.49%	15.60%
Tier 1 ratio <sup>2)</sup>	16.13%	16.50%	16.98%	16.77%	16.87%
Total capital ratio <sup>2)</sup>	18.66%	19.04%	19.55%	19.34%	19.41%
Leverage ratio (transitional definition)	5.33%	5.63%	6.01%	5.70%	5.92%
Leverage ratio (fully phased-in definition)	5.16%	5.46%	5.83%	5.56%	5.78%
<b>Asset quality</b>					
Non-performing loans ratio	2.94%	2.82%	2.63%	2.54%	2.32%
Level 1 as a share of total assets <sup>3)</sup>	7.24%	7.08%	6.78%	7.14%	7.21%
Level 2 as a share of total assets <sup>3)</sup>	13.90%	13.65%	13.47%	13.01%	12.41%
Level 3 as a share of total assets <sup>3)</sup>	0.87%	0.82%	0.81%	0.82%	0.81%
<b>Funding</b>					
Loan-to-deposit ratio	110.81%	108.32%	106.76%	106.07%	104.74%
<b>Liquidity</b>					
Liquidity coverage ratio	165.18%	170.61%	171.53%	172.49%	173.80%

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) As of the reference period Q1 2020, the liquidity sample matches the full sample. For entities where the ultimate EU parent of the banking group is located outside the SSM, the data show the highest level of consolidation reported to the ECB at the cut-off date. The obtained data are aggregated in the liquidity coverage ratio shown above.

2) CET1, Tier 1 and total capital ratios are based on the transitional provisions laid down in Articles 465 to 491 of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (the Capital Requirements Regulation).

3) The Level 1, 2 and 3 asset categories include only financial instruments measured at fair value.

## T01.01 Significant institutions by country and classification

(number of institutions)

Country	Q2 2021
Belgium	6
Bulgaria	1
Germany	21
Estonia	3
Ireland	6
Greece	4
Spain	11
France	11
Croatia <sup>1)</sup>	-
Italy	11
Cyprus	3
Latvia	3
Lithuania	3
Luxembourg	5
Malta	3
Netherlands	7
Austria	7
Portugal	3
Slovenia	3
Slovakia <sup>1)</sup>	-
Finland	3
<b>Total</b>	<b>114</b>

Size	Q2 2021
Banks with total assets	
<i>Less than €30 billion</i>	26
<i>Between €30 billion and €100 billion</i>	47
<i>Between €100 billion and €200 billion</i>	15
<i>More than €200 billion</i>	18
G-SIBs <sup>2)</sup>	8
<b>Total</b>	<b>114</b>

Geographical diversification	Q2 2021
Banks with significant domestic exposures <sup>3)</sup>	17
Banks with largest non-domestic exposures	
SSM	66
<i>Non-SSM EEA</i> <sup>4)</sup>	10
<i>Non-EEA Europe</i> <sup>5)</sup>	10

Development/promotional lenders	6
Diversified lenders	30
G-SIBs <sup>2)</sup>	8
Retail and consumer credit lenders	16
Small market lenders	15
Universal and investment banks	18
Not classified	1
<b>Total</b>	<b>114</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) There are no significant institutions at the highest level of consolidation in Croatia and Slovakia.

2) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

3) Domestic exposures more than 95% of total debt securities and loans and advances.

4) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

5) European countries not in the EEA.

6) RoW: rest of the world, i.e. all countries except European countries.

7) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

**T01.02 Concentration of total assets**  
 (cumulative percentages of total assets)

Source: ECB.  
 Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.  
 The charts show the cumulative percentage of the total assets in the sample which is covered when the total assets of each institution, ordered from the largest to the smallest, are added. For instance, it is shown that the largest institution in the sample accounts for almost 10% and the 20 largest institutions represent approximately 75% of the total assets in the sample. The solid line in red corresponds to the 75th percentile.

## T02.01.1 Profit and loss figures by reference period

(EUR millions; percentages)

Profit and loss <sup>1) 2)</sup>	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) Profit and loss statement figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

2) Figures reported are year-to-date.

3) Up to the end of the reference period Q4 2020, this includes, among other items, "Net gains or losses on financial assets and liabilities at fair value through profit and loss" and "Net gains or losses from hedge accounting".

4) Operating income before administrative expenses and depreciation are deducted.

5) Provisions include provisions for "commitments and guarantees given" and "other provisions".

6) Profit and loss before tax from continued operations (i.e. "net income before impairment, provisions and taxes" + "impairment and provisions" + "other") plus profit and loss before tax from discontinued operations.

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) Profit and loss statement figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

3) Figures reported are year-to-date.

4) Operating income before administrative expenses and depreciation are deducted.

5) Provisions include provisions for "commitments and guarantees given" and "other provisions".

6) Profit and loss before tax from continued operations (i.e. "net income before impairment, provisions and taxes" + "impairment and provisions" + "other") plus profit and loss before tax from discontinued operations.

## T02.02.1 Key performance indicators by reference period (percentages)

Indicator <sup>1) 2)</sup>	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021
Return on equity (RoE)	0.01%	2.12%	1.53%	7.21%	6.92%
Return on assets (RoA)	0.00%	0.13%	0.10%	0.45%	0.43%
Cost-to-income ratio (CIR)	67.61%	65.50%	66.03%	64.68%	64.86%
Cost of risk (CoR) <sup>3)</sup>	0.70%	0.64%	0.67%	0.64%	0.52%

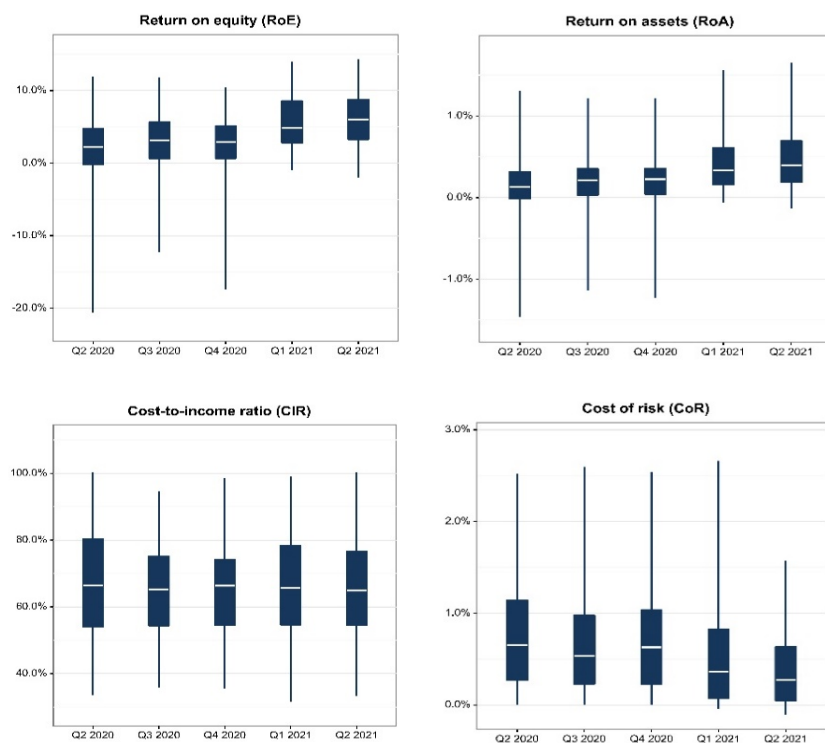

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) RoE and RoA are computed by dividing "net profit/loss" by, respectively, "equity" and "total assets" at the end of the corresponding reference period. The values of "net profit/loss", originally year-to-date, are annualised to increase the comparability of the ratios across quarters.

2) Returns figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

3) As set out in the list of definitions of ITS data points, the numerator of the cost of risk indicator is adjustments in allowances for estimated loan losses during the relevant period (annualised). Those adjustments may be negative in certain circumstances.

## T02.02.2 Key performance indicators by country

(percentages)

Country <sup>1) 2)</sup> (Q2 2021)	Return on equity (RoE)	Return on assets (RoA)	Cost-to-income ratio (CIR)	Cost of risk (CoR) <sup>4)</sup>

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

C: the value is suppressed for confidentiality reasons.

1) RoE and RoA are computed by dividing "net profit/loss" by, respectively, "equity" and "total assets" at the end of the corresponding reference period. The values of "net profit/loss", originally year-to-date, are annualised to increase the comparability of the ratios across quarters.

2) Returns figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

3) There are no significant institutions at the highest level of consolidation in Croatia and Slovakia.

4) As set out in the list of definitions of ITS data points, the numerator of the cost of risk indicator is adjustments in allowances for estimated loan losses during the relevant period (annualised). Those adjustments may be negative in certain circumstances.

### T02.02.3 Key performance indicators by classification (risk-based) <sup>1)</sup>

(percentages)

Category <sup>2) 3)</sup> (Q2 2021)	Return on equity (RoE)	Return on assets (RoA)	Cost-to-income ratio (CIR)	Cost of risk (CoR) <sup>4)</sup>
Banks with low risk	8.58%	0.54%	61.45%	0.55%
Banks with medium, high risk and non-rated	4.03%	0.25%	70.83%	0.45%

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) RoE and RoA are computed by dividing "net profit/loss" by, respectively, "equity" and "total assets" at the end of the corresponding reference period. The values of "net profit/loss", originally year-to-date, are annualised to increase the comparability of the ratios across quarters.

3) Returns figures may be based on different financial years. To increase consistency, if the end of the financial year is not 31 December, a linear projection of the figures has been made for each reporting period.

4) As set out in the list of definitions of ITS data points, the numerator of the cost of risk indicator is adjustments in allowances for estimated loan losses during the relevant period (annualised). Those adjustments may be negative in certain circumstances.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) Computed as the difference between "total assets" and the sum of the other sub-categories.

2) An asset is considered to be encumbered if it has been pledged or if it is subject to any form of arrangement to secure, collateralise or credit-enhance any transaction from which it cannot be freely withdrawn.

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) Computed as the difference between "total assets" and the sum of the other sub-categories.

3) An asset is considered to be encumbered if it has been pledged or if it is subject to any form of arrangement to secure, collateralise or credit-enhance any transaction from which it cannot be freely withdrawn.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) In line with IAS 37.10 and IAS 1.54(l).

3) Computed as the difference between "total liabilities and equity" and the sum of the other sub-categories.

4) Computed as the difference between "equity" and the sum of the other sub-categories.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. In accordance with Article 5(b), point 3 of Regulation (EU) No 680/2014, reporting requirements apply to sovereign exposures where the aggregate carrying amount of financial assets from the "General governments" counterparty sector is equal to or higher than 1% of the sum of the total carrying amounts for "Debt securities" and "Loans and advances". Therefore, the sample of entities in the table is smaller than the full sample of entities. Specifically, there are 109 banks in the fourth quarter of 2020 and 111 banks in the second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

C: the value is suppressed for confidentiality reasons.

1) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

2) European countries not in the EEA.

3) RoW: rest of the world, i.e. all countries except European countries.

4) Institutions whose non-domestic sovereign exposures are less than 10% of their total sovereign exposures are required to report the exposure at an aggregated level only.

5) This table is based on Template C 33.00.a. Institutions are required to report this template twice a year only, in the second and fourth quarters.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks that have to comply with the sovereign exposures requirement are accounted in the table.

C: the value is suppressed for confidentiality reasons.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc.

Classification as non-rated does not therefore necessarily indicate a high risk.

2) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

3) European countries not in the EEA.

4) RoW: rest of the world, i.e. all countries except European countries.

5) Institutions whose non-domestic sovereign exposures are less than 10% of their total sovereign exposures are required to report the exposure at an aggregated level only.

### T03.01.1 Total capital ratio and its components by reference period

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) CET1 stands for Common Equity Tier 1.

2) Total capital, Tier 1 and CET1 follow the transitional provisions laid down in Articles 465 to 491 of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (CRR).

<b>Total</b>	<b>8,304.75</b>	<b>1,611.63</b>	<b>19.41%</b>	<b>1,401.04</b>	<b>16.87%</b>	<b>1,295.74</b>	<b>15.60%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) Total capital, Tier 1 and CET1 follow the transitional provisions laid down in Articles 465 to 491 of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms (CRR).

3) CET1 stands for Common Equity Tier 1.

### T03.02.1 CET1 ratio band by reference period

(number of institutions)

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

**T03.04.1 Leverage ratio band by reference period**  
(number of institutions)

Indicator	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021
LR <sup>1)</sup> ≤ 3%	3	3	3	3	-
3% < LR ≤ 6%	53	51	45	54	49
LR > 6%	56	56	64	57	65
<b>Total</b>	<b>112</b>	<b>110</b>	<b>112</b>	<b>114</b>	<b>114</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) LR stands for Leverage Ratio.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

1) This category includes "corporates – SME", "corporates – specialised lending" and "corporates – other".

2) This category includes "retail – qualifying revolving", "retail – other SME" and "Retail – other non-SME".

3) This category includes "retail – secured by real estate SME" and "retail – secured by real estate non-SME".

4) CCP stands for central counterparty.

5) SA stands for standardised approach.

6) IM stands for internal model.

7) BIA stands for basic indicator approach.

8) TSA stands for traditional standardised approach. ASA stands for alternative standardised approach.

9) AMA stands for advanced measurement approach.

10) Includes "additional risk exposure amount due to fixed overheads", "total risk exposure amount related to large exposures in the trading book" and "other risk exposure amounts".

11) Risk weights are calculated as the ratio of the risk-weighted exposure amount to the total exposure amount. Not all exposure classes are presented in the table.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) This category includes "corporates – SME", "corporates – specialised lending" and "corporates – other".

3) This category includes "retail – qualifying revolving", "retail – other SME" and "Retail – other non-SME".

4) This category includes "retail – secured by real estate SME" and "retail – secured by real estate non-SME".

5) CCP stands for central counterparty.

6) SA stands for standardised approach.

7) IM stands for internal model.

8) BIA stands for basic indicator approach.

9) TSA stands for traditional standardised approach. ASA stands for alternative standardised approach.

10) AMA stands for advanced measurement approach.

11) Includes "additional risk exposure amount due to fixed overheads", "total risk exposure amount related to large exposures in the trading book" and "other risk exposure amounts".

12) Risk weights are calculated as the ratio of the risk-weighted exposure amount to the total exposure amount. Not all exposure classes are presented in the table.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available; only the banks using Internal Rating Based approach to calculate their credit risk-weighted exposure amounts are accounted in the table. Where the conditions set out in Part Three, Title II, Chapter 3 of the CRR are met, the competent authority shall permit institutions to calculate their risk-weighted exposure amounts using the IRB approach. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

C: the value is suppressed for confidentiality reasons.

1) The countries shown in the table were selected based on the relevance of the aggregate exposure value of the SSM banks using the internal ratings based approach towards the obligors of those countries.

Not classified	C	C	C
<b>Total</b>	<b>18,184.04</b>	<b>422.43</b>	<b>2.32%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

C: the value is suppressed for confidentiality reasons.

1) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

2) Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP: i) held for trading exposures are excluded, ii) cash balances at central banks and other demand deposits are included.

### T04.02.3 Asset quality: non-performing loans and advances by classification (geographical diversification)

(EUR billions; percentages)

Category (Q2 2021)	Loans and advances <sup>5)</sup>	Non-performing loans and advances	Non-performing loans ratio
Banks with significant domestic exposures <sup>1)</sup>	1,113.19	28.58	2.57%
Banks with largest non-domestic exposures			
SSM	8,542.92	201.08	2.35%
Non-SSM EEA <sup>2)</sup>	999.90	17.75	1.77%
Non-EEA Europe <sup>3)</sup>	711.75	19.45	2.73%
RoW <sup>4)</sup>	6,816.28	155.57	2.28%
<b>Total</b>	<b>18,184.04</b>	<b>422.43</b>	<b>2.32%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Domestic exposures more than 95% of total debt securities and loans and advances.

2) Countries in the European Economic Area (EEA) not participating in the Single Supervisory Mechanism (SSM).

3) European countries not in the EEA.

4) RoW: rest of the world, i.e. all countries except European countries.

5) Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP: i) held for trading exposures are excluded, ii) cash balances at central banks and other demand deposits are included.

### T04.02.3 Asset quality: non-performing loans and advances by classification (size)

(EUR billions; percentages)

Category (Q2 2021)	Loans and advances <sup>2)</sup>	Non-performing loans and advances	Non-performing loans ratio
Banks with total assets			
<i>Less than €30 billion</i>	230.24	7.03	3.06%
<i>Between €30 billion and €100 billion</i>	2,089.62	67.50	3.23%
<i>Between €100 billion and €200 billion</i>	1,634.16	46.55	2.85%
<i>More than €200 billion</i>	6,222.02	120.73	1.94%
G-SIBs <sup>1)</sup>	8,008.00	180.61	2.26%
<b>Total</b>	<b>18,184.04</b>	<b>422.43</b>	<b>2.32%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

2) Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP: i) held for trading exposures are excluded, ii) cash balances at central banks and other demand deposits are included.

### T04.02.3 Asset quality: non-performing loans and advances by classification (risk-based) <sup>1)</sup>

(EUR billions; percentages)

Category (Q2 2021)	Loans and advances <sup>2)</sup>	Non-performing loans and advances	Non-performing loans ratio
Banks with low risk	11,771.18	245.86	2.09%
Banks with medium, high risk and non-rated	6,412.86	176.57	2.75%
<b>Total</b>	<b>18,184.04</b>	<b>422.43</b>	<b>2.32%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) Loans and advances in the asset quality tables are displayed at gross carrying amount. In line with FINREP: i) held for trading exposures are excluded, ii) cash balances at central banks and other demand deposits are included.

1) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

### T04.03.3 Asset quality: non-performing exposures and forbearance by classification (risk-based) <sup>1)</sup>

(EUR billions; percentages)

Category (Q2 2021)	Total exposures				Forborne exposures			
	Performing		Non-performing		Performing		Non-performing	
	Amount	Coverage ratio	Amount	Coverage ratio	Amount	Coverage ratio	Amount	Coverage ratio
Banks with low risk	16,662.92	0.36%	276.18	41.80%	126.05	4.74%	103.72	33.90%
Banks with medium, high risk and non-rated	9,528.60	0.31%	209.88	44.47%	101.47	4.54%	84.72	39.76%
<b>Total</b>	<b>26,191.52</b>	<b>0.34%</b>	<b>486.06</b>	<b>42.95%</b>	<b>227.52</b>	<b>4.65%</b>	<b>188.44</b>	<b>36.53%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. The Level 1, 2 and 3 asset categories include only financial instruments measured at fair value.

1) G-SIBs: global systemically important banks. Data based on the last available list of G-SIBs as published by the Financial Stability Board.

### T04.04.3 Asset quality: fair value hierarchy by classification (risk-based) <sup>1)</sup>

(EUR billions, percentages)

Category (Q2 2021)	Total assets	Level 1		Level 2		Level 3	
		Amount	Ratio	Amount	Ratio	Amount	Ratio
Low risk banks	<b>15,837.17</b>	1,095.45	6.92%	1,598.60	10.09%	128.75	0.81%
Medium, high risk and non-rated banks	<b>9,459.16</b>	727.47	7.69%	1,540.31	16.28%	77.19	0.82%
<b>Total</b>	<b>25,296.33</b>	<b>1,822.92</b>	<b>7.21%</b>	<b>3,138.92</b>	<b>12.41%</b>	<b>205.94</b>	<b>0.81%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

The Level 1, 2 and 3 asset categories include only financial instruments measured at fair value.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

### T05.01.1 Loan-to-deposit ratio by reference period

(EUR billions; percentages)

Indicator	Q2 2020	Q3 2020	Q4 2020	Q1 2021	Q2 2021
Total loans and advances to non-financial corporations and households	10,950.21	10,841.22	10,679.59	10,965.06	11,006.33
Total deposits from non-financial corporations and households	9,882.17	10,008.95	10,003.82	10,337.70	10,507.90
<b>Loan-to-deposit ratio</b>	<b>110.81%</b>	<b>108.32%</b>	<b>106.76%</b>	<b>106.07%</b>	<b>104.74%</b>

Source: ECB.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available. Specifically, there are 112 in the second quarter of 2020, 110 in the third quarter of 2020, 112 in the fourth quarter of 2020 and 114 in the first and second quarter of 2021. The number of entities per reference period reflects changes resulting from amendments to the list of SIs following assessments by ECB Banking Supervision, which generally occur on an annual basis, and mergers and acquisitions.

Notes: Significant institutions at the highest level of consolidation for which common reporting (COREP) and financial reporting (FINREP) are available.

C: the value is suppressed for confidentiality reasons.

1) Risk-based classification using Supervisory Review and Evaluation Process (SREP) results. Non-rated banks are those which have not been assigned a score in a specific SREP cycle, owing for example a recent change in significance, a merger or restructuring, etc. Classification as non-rated does not therefore necessarily indicate a high risk.

2) Data refer to the end of the quarter specified in the header.

3) EHQCB stands for Extremely High Quality Covered Bonds.

**T06.02.1 Liquidity coverage ratio band by reference period**
