# Preface

The “Statistical Guide 2016” from the Austrian Federal Ministry of Education presents facts and figures about the education system – particularly from the educational documentation of the previous school year, 2015/16 – and from adult education.

In addition to the familiar charts with data on schools, classes and pupils, the booklet includes statistics about students of the University Colleges of Teacher Education, the teaching staff and the education level of the Austrian population.

This Statistical Guide continues the bilingual series of BMB publications with the latest statistical data from the previous school year and contributes to the quality assurance and further development of the Austrian education system.
