

WELCOME LIGHT ANIMATION GET STARTED GUIDE.

WELCOME LIGHT ANIMATION

Experience elevated joy with BMW's Welcome Light Animation. This feature welcomes you with a light projection coordinated with the vehicle's exterior lighting. To ensure that this greeting is truly personal, there is a choice of three light settings which the driver can set for the Welcome and Goodbye lights.

Adagio: Elegant, smooth and relaxed.

Vivace: Lively, playful and vibrant.

Allegro: Agile, dynamic and dynamic.

ACTIVATING WELCOME LIGHT ANIMATION

The BMW Welcome Light Animation feature can be purchased via the ConnectedDrive Store. Once purchased, this feature is available under the Settings & Modes option in the vehicle.

1. Welcome Light Animation needs to be configured in the vehicle if using for the first time.
To do this, select "Exterior lighting" from the apps menu, and then if necessary "Additional settings". Finally, ensure "Welcome and goodbye" is activated.
2. Confirm the light stage you wish to activate.
3. Now you are all set to enjoy Welcome Light Animation.

Log in to the ConnectedDrive Store (<https://mygarage.bmwusa.com>) to see whether Welcome Light Animation is available for your vehicle.

Refer to the owner's manual for information on system limitations and functional requirements.
