Data Operations and Analytics

Data Integration
Advanced Analytics
Data Visualization
Amplify capabilities. Accelerate decisions.

CACI understands how data empowers your mission. From data quality assessment and curation to integration and data governance, we make data accessible to help customers make timely, informed, cost-effective decisions. Our experts deliver advanced data engineering and data visualization solutions in support of a variety of missions – from business and enterprise information technology (IT) to intelligence analysis and defensive cybersecurity. In each area, we deliver an integrated common operating picture based on advanced analytics that provide critical insights to amplify your mission capabilities and accelerate decisions. **We put information and innovation to work for your mission.**

A *Fortune* World's Most Admired Company

EXPERTISE AND **TECHNOLOGY** FOR NATIONAL SECURITY

CACI
EVER VIGILANT

Features

- Data management, data curation, and data governance solutions

- Industry-leading scalable Agile and DevSecOps processes tailored to analytics

- Creation of reliable, robust data pipelines for advanced analytics

- Advanced data visualization and analytic solutions tailored to customer missions

- Data architecture supporting cloud, on premise, and edge solutions

- Expertise in open source and leading commercial off the shelf (COTS) analytic and visualization tools

Benefits

- State-of-the-art visualization solutions for real-time decision making

- Near real-time access to common operating pictures

- Accelerated delivery of new capabilities based on evolving mission needs

- Improved data quality and productivity with advanced automation

- Scalable solutions for business and intelligence systems and enterprise IT

Information and Innovation at Work

- Delivering mission-specific solutions for:
  - Business Systems and applications
  - Intelligence
  - Enterprise IT

- Data visualization solutions ingest 350 million records per day from more than 400 data sources to deliver a common operating picture for our IC customers

- Architected a 750 terabyte (TB) big data solution that informed Affordable Care Act policy decisions

- Advanced analytics solutions that support over $500 billion in invoices annually

- Data migration solutions providing visibility to data-related issues and gaps 60 percent faster

Data driven. Mission focused.

Our team of data integration professionals leverage a range of tools and technologies that quickly digitize, ingest, analyze, and visualize our customers' data. We deliver analysis and insight for business systems and enterprise IT – covering networks, cyber, and applications – providing advanced analytics and visualization that translates your data into decisions. Our data governance solutions let customers unlock the value of their data while ensuring continuous compliance and security. Our expertise and solutions accelerate data migration processes and interfaces to significantly reduce the time needed to stage, migrate, and validate data from months to weeks or days. With compelling data visualization solutions to fit customer missions, we enable users to explore, visualize, and quickly generate insights from their data. Our expertise in large-scale data-intensive architecture and engineering delivers dynamic analytic solutions in the cloud, on premise, or out on the tactical edge of operations – supported by industry-leading scalable Agile and DevSecOps analytic development processes.

CACI
EVER VIGILANT

EXPERTISE AND **TECHNOLOGY**
FOR NATIONAL SECURITY

CACI's approximately 23,000 talented employees are vigilant in providing the unique expertise and distinctive technology that address our customers' greatest enterprise and mission challenges.
