ANNEX 1 to Part B **Detailed Estimation of Costs for Lump Sums**

Instructions

1	This workbook for Lump Sum calculation must be uploaded in the Submission system as a mandatory
	document in annex to the application.

Please note that if you do not upload the fully completed Excel workbook as an annex, the application cannot be submitted (the system will not allow you to submit).

- 2 According to the Lump sum scheme, the lump sum for a Work Package (WP) will normally be paid only when the entire Work Package has been completed. Please take this into consideration while structuring your proposal. Work Packages should be designed in a way that enables the evaluator to clearly identify whether the action has been completed.
- 3 We recommend using Excel 2010 or more recent.
- 4 The only currency used in this worksheet is EURO.
- 5 The first thing you need to do is to set the relevant Maximum Grant Amount (in row 34 of this sheet), and the maximum co-financing rate (in row 35, both in column E) applicable for
- This data can be found on the Portal under Topic Conditions and in the Call document.
- 6 You then have to fill in only the following sheets: "Beneficiaries List" "Work Package list" "BE XXX" (one sheet per Participating Organisation) - 'Depreciation costs' (if your budget includes the purchase of

The final tab "Any comments" must be used to provide key information required for a full evaluation of your detailed budget (see point 18 below).

You first need to start filling in the sheet 'Beneficiaries list' where you are asked to enter all participants in the project including any Affiliated Entities.

To add beneficiaries, please double-click on 'Add a Beneficiary'; to add an affiliated entity, please, doubleclick on 'Add an Affiliated Entity'

NOTE: the costs of Associated Partners cannot appear in any part of this budget.

- 8 Then you can fill in the sheet "Work Packages list", where you are asked to enter all the Work Packages. To add a work package, please double-click on 'Add a Work Package'.
- 9 Once you have completed the 'Beneficiaries List' and 'Work Package list' sheets, or each time you add or remove a beneficiary or a work-package, you must double-click on one of the "Apply changes" buttons to generate the related sheets in the Excel workbook.

At this stage your spreadsheet is ready to be edited Beneficiary by Beneficiary (BE XXX) for all the workpackages concerned.

You are requested to enter for each Beneficiary Spreadsheet, all the related costs of each WorkPackage.

10 You have to complete a 'BE XXX' sheet per Beneficiary. This sheet includes separate sections for the various costs categories for each Work Package of the project.

Complete only the number of units and the cost per unit for each cost category. The total cost per cost category will be automatically calculated.

If the Bertholary does not consilivite to a specific VP or cost category, then leave it blank.

Attention!!!

The format of the Excel workbook is xlsm because it uses macros to generate automatically some data

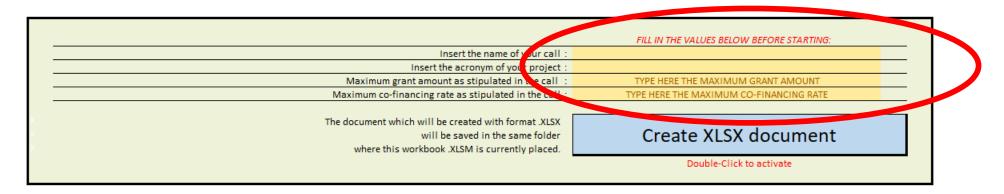

Please follow Instruction #19 to save the table as .xlsx in order to work on it and upload in the submission tool
