

Delivering students the best digital experience with the Schools Leasing Framework

Redesdale Primary School, based in Wallsend, has 250+ students and 20+ teachers.

When the school decided to invest in new AV and IT equipment, it looked for a cost-effective solution to finance it. They opted for the Schools Leasing Framework, a simple and fully compliant lease scheme established by Econocom and Link Group for the financing of EdTech for all schools across the UK.

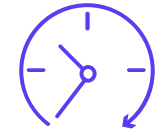

Thanks to the Schools Leasing Framework, Redesdale Primary School leased 11 Interactive Touch Screens & 47 PCs from their chosen suppliers for 3 years.

Financing
11 Interactive Touch Screens
& 47 Desktop PCs

Simple & automated solution
to get the EdTech needed while
preserving cash for core activities

24h
from inquiry
to signature

Our experience of Econocom during the lease arrangement for new audio visual and ICT hardware for the school has been extremely positive to date. Systems and procedures are straightforward and intuitive, with the financial arrangements themselves proving very cost effective. I would have no hesitation recommending this company to any prospective school or commercial enterprise considering their service.

Graham Wall, School Business Manager - Redesdale Primary School
