Proposal for a regulation

Article 46 a (new)

Text proposed by the Commission

Amendment

Article 46a

Amendment of Directive 91/676/EEC

In Directive 91/676/EEC, point (g) of Article 2 is replaced by the following:

“(g) ‘livestock manure’: means waste products excreted by livestock or a mixture of litter and waste products excreted by livestock, even in processed form, unless those products have undergone processing in accordance with Regulation (EC) No 1069/2009 and have reached a nitrate fertiliser replacement value of at least 90 %.”

Or. en

Justification

It is important to provide a link between this regulation and the Nitrates Directive and to end discrimination of animal manure based fertilising products with a sufficient working coefficient, similar to mineral fertilisers which can be used without restrictions by Directive 91/676/EEC.
