**Proposal for a directive**

**Article 4 - paragraph 1 - subparagraph 2**

*Text proposed by the Commission*

Those measures may include ***national consumption reduction targets***, measures ensuring that reusable alternatives to those products are made available at the point of sale to the final consumer, economic instruments such as ensuring that single-use plastic products are not provided free of charge at the point of sale to the final consumer. Those measures may vary depending on the environmental impact of the products referred to in the first subparagraph.

*Amendment*

Those measures may include measures ensuring that reusable alternatives to those products are made available at the point of sale to the final consumer, economic instruments such as ensuring that single-use plastic products are not provided free of charge at the point of sale to the final consumer. Those measures may vary depending on the environmental impact of the products referred to in the first subparagraph ***over their life cycle, including when littered, which may include differentiated measures relating to products made of paper with a plastic lining covered by Part A of the Annex, where this is duly justified based on an analysis of the environmental impact and provided that the reduction objective set out in the first subparagraph is met.***
