**Report****A8-0317/2018****Frédérique Ries**Reduction of the impact of certain plastic products on the environment  
(COM(2018)0340 – C8-0218/2018 – 2018/0172(COD))**Proposal for a directive****Article 15 – title***Text proposed by the Commission**Amendment*

## 15 Evaluation and review

## 15 Evaluation and review

1. The Commission shall carry out an evaluation of this Directive by ... [**six** years after the end-date for transposition of this Directive]. The evaluation shall be based on the information available in accordance with Article 13. Member States shall provide the Commission with any additional information necessary for the purposes of the evaluation and the preparation of the report referred to in paragraph 2.

1. The Commission shall carry out an evaluation of this Directive by ... [**five** years after the end-date for transposition of this Directive]. The evaluation shall be based on the information available in accordance with Article 13. Member States shall provide the Commission with any additional information necessary for the purposes of the evaluation and the preparation of the report referred to in paragraph 2.

2. The Commission shall submit a report on the main findings of the evaluation carried out in accordance with paragraph 1 to the European Parliament, the Council and the European Economic and Social Committee.

2. The Commission shall submit a report on the main findings of the evaluation carried out in accordance with paragraph 1 to the European Parliament, the Council and the European Economic and Social Committee.

3. That report shall **also indicate whether:**

3. That report shall **include:**

(a) the Annex listing single-use plastic products **needs to be reviewed;**

(a) **an assessment of the need to review** the Annex listing single-use plastic products;

(b) **it is feasible to establish binding quantitative Union targets for the consumption reduction of, in particular, single-use plastic products listed in Part A of the Annex;**

(b a) **an assessment of the change in materials used in, and innovation in new**

*delivery systems for reusable alternatives of the products covered by this Directive; this shall include an overall environmental life cycle analysis of these materials and the resulting alternatives;*

(c) sufficient scientific and technical progress has been made, and criteria or a standard for biodegradability in the marine environment applicable to single-use plastic products within the scope of this directive and their single-use substitutes have been developed, in order to determine which products no longer need to be subject to the restrictions on placing on the market, where appropriate.

(c) *an assessment of whether* sufficient scientific and technical progress has been made, and criteria or a standard for biodegradability in the marine environment applicable to single-use plastic products within the scope of this directive and their single-use substitutes have been developed, in order to determine which products no longer need to be subject to the restrictions on placing on the market, where appropriate.
