**Frédérique Ries**

Packaging and packaging waste  
(COM(2022)0677 – C9-0400/2022 – 2022/0396(COD))

**Proposal for a regulation**

**Annex IV – Part I – point 3 a (new)**

*Text proposed by the Commission*

*Amendment*

***3 a. Packaging functionality: the packaging design shall ensure its functionality, including the criteria for product acceptance by consumers. Consumer acceptance shall entail a combination of characteristics of perceived visual attractiveness or perceived ease of use that allow consumers to make free purchase decisions. Design elements required to indicate distinctive product recognition, intellectual property rights or geographical indications of origin under Union legislation shall be respected.***
