(c) requirements on final distributors to make available in reusable packaging within a system for re-use or through refill a certain percentage of other products than those covered by targets laid down in Article 26 on the condition that this does not lead to distortions on the internal market or trade barriers for products from other Member States. **deleted**

Justification

The possibility to introduce reuse targets for products other than those covered by Article 26 shall only be considered after a thorough impact assessment. Furthermore, such approach will potentially open to fragmentation of the internal market.
