**Paragraph 17 a (new)**

*Motion for a resolution*

*Amendment*

*17a. Calls for public procurement in the fields of defence and security to be excluded from the negotiations on public procurement liberalisation, as there is no precedent for their inclusion and there is a risk that it would subject the European defence industry to unfair competition; points out, too, that the liberalisation of defence-related public procurement would be at odds with the aims of Directive 2009/81/EC, which seeks to promote the creation of a European security and defence market and the gradual establishment of a European defence industrial and technological base;*
