**Motion for a European Parliament resolution on a ‘Mattei Plan’ for the Euro-Mediterranean-African region that is capable of ensuring progress on the scale we all need**

*The European Parliament,*

- having regard to Rule 143 of its Rules of Procedure,
- A. whereas the fates of Africa, the Mediterranean region and Europe should only be considered connected and convergent if a mutual commitment to peace, international law, the rule of law, democracy, good neighbourliness, responsible governance, human rights and individual dignity are the foundation of any form of cooperation;
- B. whereas the EU and its Member States need to show leadership in providing long-term solutions and programmes that could help least developed countries to generate their own revenue and enough domestic resources to allocate to their citizens and help livestock-dependent individuals in Africa to access food and water and learn that there are alternative pathways available to them;
  1. Calls on the Council to unveil a ‘Mattei Plan’ for the Euro-Mediterranean-African region, which must be capable of ensuring progress on the scale we all need;
  2. Calls on the Commission to relaunch the GALSI project, which received Project of Common Interest status in 2013 and 2015, as provided for in the TEN-E Regulation, as it is recognised as contributing to the diversification of gas supplies and routes to the European market.
