Subject: Draft national implementation plans for the New Pact on Migration and Asylum

As of October 2024, the deadline for submitting draft national implementation plans has passed. The swift and effective implementation of the New Pact on Migration and Asylum by the final deadline of 12 June 2026 must remain a top priority for all Member States. Given the current public discourse and ongoing discussions about additional measures to manage migration at EU level, accelerating the Pact's implementation is of the utmost importance.

National implementation plans play a crucial role in ensuring that Member States are fully prepared for the tasks ahead. In this regard, we, the undersigned MEPs of the Renew Europe Group, want to ask the following questions:

1. From which Member States has the Commission received a draft national implementation plan (a) on time; (b) belatedly; or (c) not at all (listed individually per Member State)?
2. For those Member States which have not submitted a draft national implementation plan, what are the reasons (listed individually per Member State)?
3. How does the Commission rate each of the draft national implementation plans it has received (listed individually per Member State) in terms of comprehensiveness, specificity, scope and feasibility?
