**Piotr Müller (ECR), Waldemar Buda (ECR), Michał Dworczyk (ECR)**

**Subject:** The Commission's position on potential money laundering by some Commission staff and their associates

Following media reports on potential cases of money laundering by some Commission staff and their associates, including former Commissioner Didier Reynders, I would like to ask the Commission about its position on this matter.

1. What specific additional measures will the Commission take to reinforce financial transparency and prevent money laundering among EU institution staff?
2. What control mechanisms and procedures does the Commission plan to put in place to monitor and prevent fraud more effectively in the context of Mr Reynders' case?
3. Has the Commission received any information, tip-offs or notices of possible fraud in relation to Mr Reynders' activities, either from internal or external sources, which could indicate improper or illegal conduct?
