

WRITTEN QUESTION E-4470/06
by David Casa (PPE-DE)
to the Commission

Subject: Environmental measures

In view of the various measures being implemented by the Maltese Government what are your views on :

- the new system being used following the closure of the Magtab landfill in Malta, which was harming the environment;
- the upgrading of the waste treatment plant in the locality of Marsascala; are the mitigation measures implemented necessitated by an increase in this plant's capacity, including those concerning odour emissions, noise and traffic, according to EU standards?
- the forestation project. What aid will be given to the Maltese Government to make this project a success?
