

**Question for written answer E-001205/2019
to the Commission**

Rule 130

Herbert Dorfmann (PPE)

Subject: Free movement of services as regards insurance broking and the conclusion of insurance contracts in the EU

Insurance companies and intermediaries wishing to offer their customers insurance products repeatedly have to contend with legal uncertainties regarding the cross-border distribution of such products.

When an insurance company established in one Member State is doing business in another Member State where it has no office, is it permitted under Directive (EU) 2016/97 to exercise the freedom to provide services by brokering insurance contracts and then concluding contracts related to an insurance product?
