Subject: The role of Russian-funded environmental organisations in shaping the EU's climate policy – follow-up question

With reference to the Commission's response P-001275/2022 and to the original parliamentary question, we ask the Commission to be more specific and provide the following information:

1. Which environmental organisations, lobbying firms and non-governmental organisations were consulted by the Commission in relation to the Green Deal and 'Fit for 55' package? Please name all of the above.
2. To the best of the Commission's knowledge, which of the organisations it has worked with in relation to the Green Deal and 'Fit for 55' have at any point received funding from the Russian Federation, Russian energy firms or other entities with ties to the Russian Federation? Please name the specific organisations.
