

**Question for written answer E-001605/2023  
to the Commission**

Rule 138

**Jacek Saryusz-Wolski (ECR)**

Subject: National recovery and resilience plans

NextGenerationEU is the EU's EUR 800 billion temporary recovery instrument for supporting economic recovery from the COVID-19 pandemic and building a greener, more digital and more resilient future. Most of the budget made available under NextGenerationEU is managed directly by the Commission, meaning that the Commission has primary responsibility for ensuring that the funds are spent properly and used effectively. Given this:

1. For which Member States did the Commission identify deficiencies in the monitoring and control systems when it was assessing the plans? How many reforms and milestones were added to each Member State's plan in order to address the weaknesses that were identified?
2. For each Member State, how many of these additional milestones have already been achieved and included in requests for payment?
