

**Question for written answer E-001143/2024
to the Commission**

Rule 138

Daniel Caspary (PPE)

Subject: Situation regarding teachers at the European School Karlsruhe

Some parents are under the impression that there may be an increased number teachers at the European School Karlsruhe who are leaving the school earlier than originally planned.

1. Since the summer of 2019, how many teachers have left the school early, and do these numbers differ between the primary and secondary schools or the different language sections?
2. How do these figures compare to the other two European Schools in Germany?
3. How does the Commission explain this trend and what steps will it to take to counteract it?
