Subject: The outcome of the European Year of Youth

The European Year of Youth has ended. Young people have actively participated in it by giving their opinion about the European Union and proposing helpful solutions for young Europeans.

It is important to evaluate if this year has built a legacy with tangible results for young people across Europe. Therefore, we are calling upon the Commission to present its assessment of the results of the European Year of Youth to Parliament, while answering the following questions:

1. What concrete measures does the Commission propose as an outcome to the European Year of Youth?
2. How does it propose to address the initiatives advanced by young people related to the youth test, unpaid internships and political participation?
