

**Priority question for written answer P-001263/2024
to the Commission**

Rule 138

Martin Schirdewan (The Left)

Subject: Corporate complaints

Member States may use justified measures to protect their domestic markets in the name of public interest objectives, such as the protection of public policy, public health and public security. Nevertheless, several stakeholders have repeatedly raised concerns about 'regulatory barriers' in the single market and are calling for a stronger EU governance system to remove such 'obstacles'.

1. How many corporate complaints about 'regulatory barriers' in the single market did the Commission receive each year in 2022, 2023 and 2024?
2. What are the issues that have been raised most prominently and how has the Commission responded to these complaints?
