European Parliament Liaison Offices (EPLO) activities

During the Gender Equality Week, the European Parliament Liaison Offices in the members states are preparing a number of communication actions to highlight the importance of gender equality and how the EU is promoting it. Discussion panels and roundtables with representatives from politics, businesses, civil society organisations or academia take place around the theme of 'Women in the Digital World: Safety & Empowerment' reflecting on challenges and opportunities women face these days online. Social media campaigns, screenings of Lux Award films, exhibitions or projections of dedicated video clips in

European capitals contribute to overall communication efforts of the European Parliament to promote values of gender equality.

Please check the website of the EPLO in your country for Gender Equality Week related events [here](#).

National Parliament's activities

A video message on the issue, by the President of the House of Representatives of the Republic of Cyprus Ms Annita Demetriou, will be posted on her social media and the social media of the House of Representatives of the Republic of Cyprus.
