PROVISIONAL AGREEMENT RESULTING FROM INTERINSTITUTIONAL NEGOTIATIONS

Subject: Proposal for a regulation of the European Parliament and of the Council on establishing the Ukraine Facility (COM(2023)0338 – C9-0210/2023 – 2023/0200(COD))

The interinstitutional negotiations on the aforementioned proposal for a regulation have led to a compromise. In accordance with Rule 74(4) of the Rules of Procedure, the provisional agreement, reproduced below, is submitted as a whole to the Committee on Foreign Affairs and the Committee on Budgets for decision by way of a single vote.

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

■ establishing the Ukraine Facility

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 212 and Article 322(1) thereof,

Having regard to the proposal from the European Commission,

Having regard to the opinion of the Court of Auditors,

Acting in accordance with the ordinary legislative procedure,

Whereas:

- (2) Since the beginning of Russia's unprovoked and unjustified war of aggression against Ukraine on 24 February 2022, the Union, its Member States and European financial institutions have mobilised unprecedented support to Ukraine's economic, social and financial resilience, combining support from the Union budget, including the exceptional macro-financial assistance and support from the European Investment Bank and the European Bank for Reconstruction and Development, fully or partially guaranteed by the Union budget, as well as further financial support by Member States.
- (3) The European Council of 23 June 2022 decided¹ to grant the status of candidate country to Ukraine, which expressed a strong will to link reconstruction with reforms on its European path. Ongoing strong support to Ukraine is a key priority for the Union and an appropriate response to the Union's strong political commitment to support Ukraine for as long as necessary.

¹ European Council Conclusions, 23-24 June 2022; EUCO 24/22.

- (4) The provision by the Union of macro-financial assistance of up to EUR 18 billion for 2023 under Regulation (EU) 2022/2463 of the European Parliament and of the Council² was considered an appropriate response to Ukraine's financing gap for 2023 and helped to mobilise significant financing from other donors and international financial institutions. This constituted a major contributing factor to Ukraine's macroeconomic and financial resilience at a critical time.
- (5) The Union *has also provided* significant financial support through an additional package combining funds under the Neighbourhood, Development and International Cooperation Instrument – Global Europe (NDICI) established under Regulation (EU) 2021/947 of the European Parliament and of the Council³ and loans by the European Investment Bank. *In addition, continuous support is being provided by Member State authorities, communities, NGOs and volunteers' groups.*
- (6) In addition, in its Decision (CFSP) 2021/509⁴, the Council decided on off-budget assistance measures to support the Ukrainian armed forces under the European Peace Facility, in the amount of EUR **6,1** billion, and *in its Decision (CFSP) 2022/1968 established* a military assistance mission in support of Ukraine with EUR 0,1 billion for the common costs. The Union and its Member States have also delivered unprecedented in-kind emergency response via the Union Civil Protection Mechanism under Decision No 1313/2013/EU⁵ of the European Parliament and of the Council, as amended by Regulation (EU) 2021/836 of the European Parliament and the Council⁶, constituting the largest emergency operation since the creation of that mechanism.
- (7) Furthermore, the EU-Ukraine Solidarity Lanes established in May 2022 have contributed to generating an estimated export value of EUR 31 billion for the Ukrainian economy until end May 2023.

² Regulation (EU) 2022/2463 of the European Parliament and of the Council of 14 December 2022 establishing an instrument for providing support to Ukraine for 2023 (macro-financial assistance +); (OJ L 322, 16.12.2022, p. 1–14).

³ Regulation (EU) 2021/947 of the European Parliament and of the Council of 9 June 2021 establishing the Neighbourhood, Development and International Cooperation Instrument – Global Europe, amending and repealing Decision No 466/2014/EU and repealing Regulation (EU) 2017/1601 and Council Regulation (EC, Euratom) No 480/2009 (OJ L 209, 14.6.2021, p. 1).

⁴ Council Decision (CFSP) 2021/509 of 22 March 2021 establishing a European Peace Facility, and repealing Decision (CFSP) 2015/528, (OJ L 102 24.3.2021, p. 14).

⁵ Decision No 1313/2013/EU of the European Parliament and of the Council of 17 December 2013 on a Union Civil Protection Mechanism (OJ L 347, 20.12.2013, p. 924–947).

⁶ Regulation (EU) 2021/836 of the European Parliament and of the Council of 20 May 2021 amending Decision No 1313/2013/EU on a Union Civil Protection Mechanism (OJ L 185, 26.5.2021, p. 1).

- (8) Russia's war of aggression against Ukraine has caused Ukraine damages amounting to more than EUR 270 billion⁷ as of 24 February 2023, and reconstruction costs being estimated at EUR 384 billion, as well as a loss of access to financial markets and a significant drop in public revenue, while public expenditure to address the humanitarian situation and to maintain the continuity of State services has increased markedly. Such estimates, as well as the analytical information from all other appropriate and subsequent sources, provide a relevant basis to establish the respective funding needs for the coming years, including regional and sectoral considerations.
- (9) On 30 March 2023, the International Monetary Fund (IMF) estimated the State financing gap up to 2027 at EUR 75.1 billion and agreed with Ukraine a EUR 14.4 billion four-year programme to anchor policies that sustain fiscal, external, price and financial stability and support economic recovery, while enhancing governance and strengthening institutions to promote long-term growth in the context of post-war reconstruction and Ukraine's path of accession to the European Union.
- (10) ***In light of Russia's war of aggression against Ukraine***, a residual gap remains in Ukraine's financing needs. ***Therefore, significant and flexible support to the Ukrainian government is needed for it to maintain its functions, provide public services***, as well as to support the recovery, reconstruction and modernisation of the country ■ .
- (11) Given the damage ***caused by*** Russia's war of aggression to the Ukrainian economy, society and infrastructure, ***Ukraine will require significant support and institutional capacity*** to maintain its functions, as well as ***short-term relief and assistance for*** fast recovery, reconstruction and modernisation of ***the country***. Ukraine will require comprehensive support to ***"build back better" through a people-centred recovery that creates*** the foundations ***for*** a free, ***culturally vibrant*** and prosperous country ***with a resilient economy*** well integrated into the European and global economy, ***anchored in European values and progressing towards*** accession to the European Union.
- (12) In this context, it is necessary to set up ***an exceptional*** medium-term single instrument that brings together the bilateral support provided by the Union to Ukraine, ensuring coordination and efficiency. To that end, it is necessary to establish a Ukraine Facility ('the Facility') ***for the period 2024-2027***, providing a balance between flexibility and

programmability of the Union's response to address Ukraine's financing gap, recovery, reconstruction and modernisation needs, while at the same time supporting Ukraine's reforms effort as part its accession path to the Union.

- (13) ***Given the exceptional nature of the Ukraine Facility, it should be underpinned by a coherent and prioritised plan for reconstruction (the 'Ukraine Plan'), prepared by the Government of Ukraine with due involvement of the Verkhovna Rada, representatives of civil society organisations, providing a structured and predictable framework for the recovery, reconstruction and modernisation of Ukraine clearly articulated with Union accession requirements.***
- (14) Union support to Ukraine from 2024 to 2027 should be provided primarily and mainly under the Ukraine Facility, ***avoiding any potential overlap with other programmes, in particular the Instrument for Pre-Accession assistance, and ensuring a consistent approach through a unified instrument, by replacing or, where appropriate, complementing activities under the existing instruments. Support under the Ukraine Facility should not prejudice future assistance to Ukraine and its possibility to participate in Union programmes under the multiannual financial framework post-2027.***
- (15) In this regard, Union support under the Facility should replace the bilateral support provided under the Neighbourhood, Development and International Cooperation Instrument – Global Europe (***NDICI-GE***) established under Regulation (EU) 2021/947 of the European Parliament and of the Council. It is nevertheless important to ensure that Ukraine can continue to benefit from regional, thematic, rapid response, and other forms of support under NDICI, ***in particular*** cross-border cooperation programmes, and more generally continue to advance regional, macro-regional and cross-border cooperation and territorial development, including through the implementation of Union macro-regional strategies.
- (16) Humanitarian aid, defence or support to Member States providing protection for ***people*** fleeing the war ***in Ukraine*** should be ***adequately and consistently*** provided outside the Facility. Ukraine may continue to benefit from relevant existing Union programmes ***within the EU budget, such as NDICI-GE for actions referred to in recital 15, the European Instrument for International Nuclear Safety Cooperation, Humanitarian Aid, and activities under the Common Foreign and Security Policy, as well as measures under the European Peace Facility outside the EU budget. Furthermore, Ukrainian***

entities may participate in internal policy Union programmes such as Horizon Europe, EURATOM Research and Training Programme, Digital Europe Programme, Cooperation in the field of taxation (Fiscalis), Cooperation in the field of Customs (Customs), Erasmus+, EU4Health Programme, Creative Europe, LIFE, Single Market Programme, Union Civil Protection Mechanism, Connecting Europe Facility (CEF), Union Anti-Fraud Programme as well as other relevant programmes in accordance with their respective rules, objectives and the relevant association agreements.

- (17) The Facility should contribute to closing the funding gap of Ukraine until 2027, by providing **non-repayable support** and highly concessional **loans** in a predictable, continuous, orderly and timely manner. The assistance should support macro-financial stability in Ukraine, and ease Ukraine's external financing constraints.
- (18) Under the new Facility, investment in Ukraine's **sustainable** recovery, reconstruction and modernisation should start as a matter of urgency to **help providing** decent living conditions for the Ukrainian population **and reconstruct critical infrastructure, where possible**, to ensure generation of employment and revenues and progressively lower the volume of international assistance needed, **while also mitigating environmental damage to the extent possible in a war-torn country, and supporting Ukraine in the green transition.**
- (19) █
- (20) The medium-term perspective provided by the Ukraine Plan through a single instrument should also encourage Ukraine to channel investments and reforms **towards** the transition to a green, **sustainable**, digital and inclusive economy, and help mobilise like-minded donors, **including from the private sector**, for multiannual contributions to support Ukraine. **Investments should be aligned, to the extent possible, with the Union climate and environmental acquis, and be consistent with the implementation of the Ukrainian National Climate and Energy Plan.**
- (21) The recovery, reconstruction and modernisation effort should build on Ukraine's ownership, close cooperation and coordination with supporting countries and organisations, and Ukraine's path towards accession to the Union. Regional and local administrations **as well as Ukrainian civil society organisations** are also expected to play an important role **in this process by participating in its design and scrutiny.** Peer-to-peer

cooperation and programmes embedded in partnerships between cities and regions in the Union and those in Ukraine *have already facilitated the delivery of humanitarian aid, and other forms of assistance, to Ukraine and thus provide a basis to* enrich and accelerate the recovery, reconstruction and modernisation process.

- (22) The Union should also foster close consultation and association of local *and regional* authorities, which embrace a large variety of sub-national levels and branches of government, including regions, municipalities, rayons and hromadas and their associations, as well as *close consultation and participation of Ukrainian civil society organisations. The Union should encourage their meaningful* participation in the recovery, reconstruction and modernisation of Ukraine, based on sustainable development and through the implementation of the Sustainable Development Goals at local *and regional* level. The Union should recognise *and support* the multiple roles played by the local *and regional* authorities as promoters of *an inclusive* territorial approach to local development, including decentralisation processes, participation *of civil society organisations and local communities, transparency* and accountability, and further enhance its support for local authorities' capacity building, *including for the implementation of projects under the Facility, in line with the principle of local self-government as defined in the European Charter of Local Self-Government, to which Ukraine is a signatory.*
- (23) The Union should provide support to the transition towards accession for the benefit of Ukraine, drawing on the experience of the Member States. Such cooperation should focus particularly on the sharing of experience that was acquired by the Member States during their own reform processes.
- (24) Support under the Facility should also build on and maximise synergies with key organisations supporting Ukraine's reforms and reconstruction, such as the European Investment Bank *Group, international financial institutions including* the World Bank, the Organisation for Economic Co-operation and Development, and the International Monetary Fund; *and European multilateral finance institutions, including the European Bank for Reconstruction and Development and the Council of Europe Development Bank; and bilateral finance institutions such as development banks and export credit agencies.*
- (25) Given the uncertainties linked to the war, it is appropriate that the Facility should be able

to provide support to Ukraine in duly justified exceptional circumstances, in particular in the event of a significant deterioration of the war, and in order to maintain its macro-financial stability and to ensure the achievement of the objectives of the Facility. Such exceptional financing should ***be provided for individual periods of up to three months and should*** only be provided, through a Council implementing decision upon a proposal by the Commission, if it is concluded that it is impossible for Ukraine to fulfil the conditions attached to the forms of support under this Regulation, when it is the beneficiary of the support, and should cease as soon as the fulfilment of the conditions becomes possible again. Such financing should not affect funding from other specific Union instruments which should be mobilised in case of natural disasters or other humanitarian or civil protection emergencies. ***If necessary, exceptional financing could be available under the Facility before the adoption of the Ukraine Plan and the conclusion of the Framework Agreement. It could be additional to exceptional bridge financing, as applicable.***

- (26) The enlargement policy framework defined by the European Council and the Council, the association agreement, partnership and cooperation agreement, multilateral agreements to which the Union is a party and other agreements that establish a legally-binding relationship with Ukraine, as well as resolutions of the European Parliament, communications of the Commission and joint communications of the Commission and the High Representative of the Union for Foreign Affairs and Security Policy should constitute the overall policy framework for the implementation of this Regulation. The Commission should ensure coherence between the assistance under the Facility and the enlargement policy framework.
- (27) Article 49 of the Treaty on European Union provides that any European State which respects the values of respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities, and is committed to promoting those values may apply to become a member of the Union. Those values are common to Member States in a society in which ***inclusiveness***, pluralism, non-discrimination, tolerance, justice, solidarity and ***gender equality*** prevail.
- (28) A European State which has applied to join the Union can become a member of the Union only where it has been confirmed that it fully meets the accession criteria established at the Copenhagen European Council in June 1993 (the ‘Copenhagen criteria’) and provided that the Union has the capacity to integrate the new member. The Copenhagen criteria relate to

the stability of institutions which guarantee democracy, the rule of law, human rights and respect for and protection of minorities, the existence of a functioning market economy as well as the capacity to cope with competitive pressure and market forces within the Union, and the ability to assume not only the rights but also the obligations under the Treaties, including the pursuit of the aims of political, economic and monetary union.

- (29) It is in the common interest of the Union and Ukraine to advance the efforts of Ukraine to reform its political, legal and economic systems with a view to Union membership. ***Granting EU candidate status to Ukraine is a geostrategic*** investment of the Union in peace, security, stability and prosperity in Europe and allows the Union to be better positioned to address global challenges. It also provides increased economic and trade opportunities to the mutual benefit of the Union and Ukraine, while supporting a gradual transformation of the country. The prospect of Union membership has a powerful transformative effect, embedding positive democratic, political, economic and societal change.
- (30) Embracing and committing to core European values is a choice and is essential for Ukraine's aspiration to Union membership. In line with this, Ukraine should take ownership and fully commit to European values as well as to upholding a global order based on rules and values and vigorously pursuing the necessary reforms in the interest of its people.
- (31) Reconstruction from the damage caused by the war of Russian aggression cannot be limited to rebuilding what was destroyed as it was before the war. The reconstruction offers an opportunity to support Ukraine in its process of integration into the Single Market and in accelerating its sustainable green and digital transitions, in line with Union policies, ***while fostering economic integration with the Union and promoting socio-economic development and cross-border cooperation***. The Facility should ***therefore*** promote reconstruction in a way that modernises and improves Ukraine's economy ■ , building on Union rules and standards, ■ investing in the transition of Ukraine towards a ***sustainable*** green, digital, inclusive economy, ***thereby benefitting society as a whole, with particular attention to the needs of vulnerable groups***. ***Reconstruction of cultural heritage should be based on national, international and European norms, on standard-setting texts, principles (such as New European Bauhaus) and lessons learned, and be consistent with the European quality principles for Union-funded interventions with potential impact on***

cultural heritage. Particular attention should be paid to ensuring the sustainability and adequate protection of activities financed under the Facility in light of cybersecurity risks and the overall threat landscape.

- (31a) *In line with the need to support the recovery and reconstruction of Ukraine in a sustainable and future-proof way, the Facility should not support activities or measures which promote investments in fossil fuels, or that do not respect the principle of "do no significant harm", including biodiversity, or the climate, unless such activities or measures are strictly necessary to achieve the objectives of the Facility, to the extent possible in a war-torn country. Such activities or measures would concern for example the continuation of economic activities, or addressing urgent recovery and reconstruction needs. They should take into account the need to rebuild and modernise infrastructure and rehabilitate nature damaged by the war in a resilient way. They should be accompanied, where relevant, by appropriate measures to avoid, prevent or reduce and, if possible, offset these effects.*
- (32) The Facility should contribute to the adherence to the Paris Agreement and the United Nations Framework Convention on Climate Change, the United Nations Convention on Biological Diversity and the United Nations Convention to Combat Desertification and should not contribute to environmental degradation or cause harm to the environment or climate. In particular, funding allocated in the context of the Facility should be coherent with the long-term goal of holding the increase in the global average temperature to well below 2°C above pre-industrial levels and pursuing efforts to limit the temperature increase to 1,5°C. It should also be coherent with the objective to increase the ability to adapt to the adverse effects of climate change and foster climate resilience, and with the support of biodiversity conservation, circular economy and zero-pollution. Particular attention should be given to actions that create co-benefits and meet multiple objectives, including for climate, biodiversity and the environment. *In light of the enormous environmental damage caused by Russia's war of aggression, the Facility could contribute to addressing the challenges resulting therefrom. The Facility should, to the extent possible, contribute to climate change mitigation and adaptation, environmental protection, to the green transition, including biodiversity, or to addressing the challenges resulting therefrom, and should aim to account for an amount that represents at least 20*

% of the overall amount corresponding to support under the Ukraine Investment Framework and to investments under the Ukraine Plan. Such amount should be calculated building on, as applicable and appropriate, coefficients used in existing methodologies for climate and biodiversity, such as in particular Annex VI of Regulation (EU) 2021/241 and additional intervention fields, as adjusted in the context of the Ukraine Facility.

- (32a) *The Facility should strive to improve the awareness of and fight against environmental crime in Ukraine, supporting the implementation of the Kyiv Protocol on Pollutant Release and Transfer Registers and ensuring compliance with nature protection laws.*
- (33) *In this context, measures funded under the Facility should be consistent, to the extent possible in a war-torn country, with the climate and environmental standards of the Union. Those measures should also mainstream climate change, environmental protection, human rights, peace, democracy, gender equality and non-discrimination, and where relevant, disaster risk reduction, as well as progress towards the Sustainable Development Goals. Support under this Facility should also be guided by the principle of “leaving no one behind”, and strive to ensure a balanced and needs-based allocation and use of resources.*
- (34) *The implementation of this Regulation should be guided by the principles of equality, inclusivity and non-discrimination, as elaborated in the Union of Equality strategies. It should prevent and combat violence against women, gender-based violence and domestic violence. It should encourage women’s meaningful participation in decision-making processes, promote and advance gender equality, the empowerment of women and girls, and the protection and promotion of their rights taking into account the EU Gender Action Plans and relevant Council conclusions and international conventions. The Facility should help address the social health challenges, including mental health as a necessity for a healthy post-war society, with a particular focus on children. The implementation of the Facility should be in line with the United Nations Convention on the Rights of Persons with Disabilities and ensure relevant stakeholder involvement in decision-making processes as well as accessibility in its investments and technical assistance. The Facility should also be in line with the United Nations Convention on the rights of the child and support children and youth as key agents of change and as contributors to the realisation of the 2030 Agenda.*

- (35) Strengthening the rule of law, including the independence of the judiciary; **support deoligarchisation efforts**, the fight against **corruption and in particular high-level** corruption, money laundering, **tax avoidance, tax evasion, tax fraud** and organised crime; **strengthening transparency, including public access to information**; good governance at all levels, **and the participation of civil society organisations, including human rights organisations**; safeguarding the free and pluralistic media; strengthening public administration reform, including in the fields of public procurement, competition and State aid **■**. In view of the longer-term nature of the reforms pursued in those areas and the need to build up track records, support under the Ukraine Facility should address those issues as early as possible.
- (36) In accordance with the principle of participatory democracy **and for the purpose of checks and balances**, the Union should encourage the strengthening of parliamentary capacities, parliamentary oversight, democratic procedures and fair representation in Ukraine **as well as meaningful participation of regions and municipalities, as well as of civil society at all stages of the democratic process allowing for enhanced democratic scrutiny. The Ukraine Plan should demonstrate how meaningful participation of stakeholders was planned and conducted via consultations, with sufficient timeframes and transparency, and clear follow-up procedures to input given. In accordance with Ukrainian constitutional order, the Verkhovna Rada of Ukraine should be informed and consulted at all the stages of the Facility life cycle. The outcomes of any debates held or opinions issued concerning the Ukraine Plan by the Verkhovna Rada should be taken into account.**
- (37) Enhanced strategic and operational cooperation between the Union and Ukraine on security is pivotal to addressing effectively and efficiently the threats of security, **including hybrid threats such as cyber threats, as well as resilience against disinformation, foreign information manipulation and interference**, organised crime and terrorism.
- (38) Actions under the Ukraine Facility should also, **in line with point c of Article 21(2) of the TEU and in accordance with the purposes and principles of the UN Charter**, support, where appropriate, confidence-building measures and processes that promote justice, truth-seeking, **comprehensive post-conflict rehabilitation for an inclusive, peaceful society and reparations and guarantees of non-recurrence as well as collection of evidence of crimes committed during the war and making available the relevant findings, as appropriate.**

Particular attention should be given to supporting formal, informal and non-formal peace education.

- (39) The support under the Facility should be made available under the precondition that Ukraine continues to respect effective democratic mechanisms and institutions, including a multi-party parliamentary system, and the rule of law, and to guarantee respect for human rights, including the rights of persons belonging to minorities.
- (40) The support under the Ukraine Facility, including to Ukraine's path toward accession, should be provided to meet general and specific objectives, based on established criteria and with clear conditionalities.
- (41) The general objectives of the Ukraine Facility should be *inter alia* to assist Ukraine in addressing the social, economic, ***psychological*** and environmental consequences of the war, contributing to the reconstruction, including ***peaceful*** recovery, ***restoration*** and modernisation of the country, fostering social ***and territorial cohesion, and democratic, economic*** ■ environmental resilience, ***and a*** progressive integration into the Union and global economy and markets ***as well as an upward economic, social and environmental convergence towards Union standards***, preparing Ukraine for future membership of the Union by supporting its accession process. Such objectives should be pursued in a mutually reinforcing manner.
- (42) In line with the European Pillar of Social Rights, the Facility should support solidarity, integration, and social justice with the aim of creating and sustaining quality employment and sustainable ***and inclusive*** growth, ensuring equality of, and access to, opportunities, ***education*** and social protection, protecting ■ groups ***in vulnerable situations***, and improving living standards. The Facility should also contribute to fighting poverty and tackling unemployment and lead to quality job creation, the inclusion and integration of disadvantaged groups. The Facility should provide for investment opportunities in skills including through vocational education and training aiming to prepare the workforce to the digital and green transitions. It should also enable the strengthening of social dialogue, infrastructure and services.
- (43) The Facility should ensure consistency with, and complementarity to, the general objectives of Union external action as laid down in Article 21 of the Treaty on European Union, including respect for fundamental rights and principles as well as the protection and

promotion of human rights, democracy and fundamental principles of the rule of law, including on anti-corruption, judiciary, public administration, **good governance and transparency and accountability**.

- (44) Given the uncertainties linked to Russia's war of aggression, the Facility should be a flexible instrument enabling the Union to address Ukraine's needs through a diversified toolbox which provides financing of the Ukrainian State, support to short-term recovery and reconstruction priorities, support to investments and access to finance, as well as technical assistance and capacity building and other relevant activities.
- (45) Union support should be organised around three pillars, namely (i) financial support to the Ukrainian State for the implementation of reforms and investments, as well as to maintain macro-financial stability of the country, as set out in the Ukraine Plan; (ii) a Ukraine Investment Framework to mobilise investments and enhance access to finance; (iii) accession assistance to mobilise technical expertise and capacity building.
- (46) As the recovery, reconstruction and modernisation needs are substantial, and cannot be covered by the Union budget alone, both public and private investments should play a role. The Facility should enable the **timely** mobilisation of both public and private investments and should allow for the possibility to scale up support for investments in long-term reconstruction when circumstances allow, also considering implementation and absorption capacity of Ukraine. ***The mobilisation of private investment via the Facility should contribute to the long-term competitiveness and the innovative capacity of Ukraine.***
- (46a) ***Russia must be held fully accountable and pay for the massive damage caused by its war of aggression against Ukraine, which constitutes a blatant violation of the UN Charter. The Union and its Member States should, in close cooperation with other international partners, continue to work towards this goal, in accordance with EU and international law, taking into account Russia's serious breach of the prohibition on the use of force enshrined in Article 2(4) of the UN Charter and the principles of State responsibility for internationally wrongful acts, including the obligation to compensate for the financially assessable damage caused. Inter alia, it is important that progress is made, in coordination with international partners, on how extraordinary revenues held by private entities stemming directly from immobilised Russian assets could be directed to support Ukraine and its recovery and reconstruction, consistent with applicable contractual obligations, and in accordance with EU and international law.***

- (47) The overall maximum amount for the Union support to the Facility should be EUR 50 billion in current prices for the period from 2024 to 2027, for all types of support. In light of the evolving circumstances and of the objectives of the Facility itself, the Union support needs to provide a balance between flexibility and programmability.
- (48) As for the Union support, other than in the form of loans, this Regulation should be financed by and in accordance with the Ukraine Reserve, as proposed in the amendment to Council Regulation (EU, Euratom) 2020/2093⁸, up to EUR 17 billion for the period 2024 to 2027. Such maximum amount does not constitute the prime reference amount, within the meaning of point 18 of the Interinstitutional Agreement of December 2020 between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources, for the European Parliament and the Council during the annual budgetary procedure. ***Potential revenues could be generated under the relevant legal acts, concerning the use of extraordinary revenues held by private entities stemming directly from the immobilised Central Bank of Russia assets.***
- (49) ***In accordance with Article 10b of the proposed amendment to Council Regulation (EU, Euratom) 2020/2093⁹ the mobilisation of the Ukraine Reserve should enable the provision of an annual maximum amount for support, other than in the form of loans, of EUR 5 billion,¹⁰. The unused portion of the annual maximum amount of the support other than loans should remain available for the remaining part of the period for which the Facility is established.***
- (50) In the framework of the Union's restrictive measures, adopted on the basis of Article 29 of the Treaty on European Union (TEU) and 215(2) of the Treaty on the Functioning of the European Union (TFEU), no funds or economic resources may be made available, directly or indirectly, to or for the benefit of designated legal persons, entities or bodies. Such designated entities, and entities owned or controlled by them, therefore cannot be supported by the Facility.

Ukraine Reserve should be mobilised annually in the budget over and above the ceilings of the Multiannual Financial Framework.

- (52) For the part of the Ukraine Facility support provided in the form of loans, it is appropriate to extend the Union budget guarantee to cover the financial assistance which is made available to Ukraine, authorised in accordance with Article 220(1) of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council¹¹. As a consequence, ***Council Regulation XXX amending*** Council Regulation (EU, Euratom) 2020/2093¹² ***mobilises*** the necessary appropriations in the Union budget over and above the ceilings of the Multiannual Financial Framework for financial assistance to Ukraine available until the end of 2027.
- (53) While respecting the principle that the Union budget is set annually, the possibility to apply the flexibilities in accordance with Regulation (EU, Euratom) 2018/1046 for other policies should be ensured, namely for carry overs and re-commitments of funds, to ensure efficient use of the Union funds, thus maximising the Union funds available under the Facility.
- (54) Restrictions of eligibility in award procedures under the Facility should be allowed on account of the specific nature of the activity or when the activity affects security or public order.
- (55) In order to ensure an efficient implementation of the Facility, ***Ukraine should provide public access to the information on funding opportunities under this Facility, as well as free and fair competition during tendering process and grant allocation under the Facility. It should also contribute to*** the facilitation of Ukraine's integration in European value chains, all supplies and materials financed and procured under this Facility should originate from Member States, Ukraine, ***Western Balkan partners, Georgia and Moldova,*** contracting parties to the Agreement on the European Economic Area, ***and*** countries ***which provide a level of support to Ukraine comparable to the one provided by the European Union taking into account the size of their economy and*** for which reciprocal access to external assistance in Ukraine is established by the Commission, unless the

supplies and materials cannot be sourced at reasonable conditions in any of those countries.

In the latter, case, the Commission should keep the Council informed.

- (56) The Union should seek the most efficient use of available resources in order to optimise the impact of its external action. That should be achieved through coherence, consistency and complementarity with the other Union's external financing instruments, as well as through synergies with other Union policies and programmes. In order to maximise the impact of combined interventions to achieve a common objective, it should be provided that the Facility should be able to contribute to actions under other programmes, ***without causing duplication of support measures.***
- (57) The Union should promote a multilateral, rules-based and values-based approach to global goods and challenges and should cooperate with Member States, partner countries, international organisations and other donors in that respect.
- (58) In view of the need to coordinate international support to the recovery, reconstruction and modernisation of Ukraine, it should be possible for Member States, third countries, international organisations, international financial institutions or other sources to contribute to the implementation of the Facility. Such contributions should be implemented in accordance with the same rules and conditions and should constitute external assigned revenue within the meaning of Article 21(2)(a)(ii), (d), and (e) of Regulation (EU, Euratom) 2018/1046. ***Support under the Facility should, as far as possible, be integrated into international efforts towards a financial architecture for the recovery of Ukraine and be coordinated with relevant donors and international financial institutions.***
- (59) The Commission and the Member States should ensure the **■** coherence, consistency, ***complementarity and transparency*** of their assistance, in particular through regular consultations and frequent exchanges of information during the different phases of the assistance cycle ***with relevant stakeholders***, including at local ***and regional*** level. In light of the presence of various international donors, the necessary steps should also be taken to ensure better coordination and complementarity with other donors, including through regular consultations ***and strategic outreach***. In this regard, the Multi-Agency Donor Coordination Platform should be used as an already established forum for such exchange.

- (60) Horizontal financial rules adopted by the European Parliament and the Council on the basis of Article 322 TFEU should apply to this Regulation. Those rules are laid down in Regulation (EU, Euratom) 2018/1046 and determine in particular the procedure for establishing and implementing the budget through grants, prizes, procurement, indirect management, financial instruments, budgetary guarantees, financial assistance and the reimbursement of external experts, and provide for checks on the responsibility of financial actors.
- (61) The types of financing and the methods of implementation under this Regulation should be selected on the basis of their ability to achieve the objectives of the Facility and to deliver results, taking into account, in particular, the costs of controls, administrative burdens, and the expected risk of non-compliance. That should include consideration of the use of lump sums, flat rates and unit costs, as well as financing not linked to costs as referred to in Article 125(1) of Regulation (EU, Euratom) 2018/1046.
- (62) A Framework agreement should be concluded with Ukraine to set up the principles of the financial cooperation between the Union and Ukraine, including necessary mechanisms to control and audit expenditures, ***and should ensure that Ukraine achieves a high level of protection of the financial interests of the Union, comparable to the one provided for in Regulation (EU, Euratom) 2018/1046 and other related Union legislation.*** Financing and loan agreements should also be concluded with Ukraine, where appropriate depending on each pillar, to define conditions for releasing funds.
- (63) By way of derogation from the first, second, and fourth subparagraphs of Article 209(3) of Regulation (EU, Euratom) 2018/1046, it is appropriate that repayments and revenues generated by a financial instrument should constitute internal assigned revenue to the Facility or its successor programme.
- (64) By way of derogation from Article 213(4)(a) of Regulation (EU, Euratom) 2018/1046, it is appropriate that surplus from the provisions for the Ukraine Guarantee should constitute internal assigned revenue to the Facility or its successor programme.
- (65) Under pillar I of the Facility, financing should be provided to support the implementation of the Ukraine Plan setting out the reform and investment agenda of Ukraine towards the achievement of the general and specific objectives of the Facility, which should also be integrated in an economic and fiscal policy framework. Financing under this pillar should be provided upon satisfactory fulfilment of conditions set out in the Plan.

- (66) Ukraine should prepare the Plan as a coherent, comprehensive and adequately balanced response to rebuilding and modernising Ukraine, supporting its economic, social and environmental recovery, *sustainable development* and its progress towards accession to the Union. As such, the Ukraine Plan would also provide a basis for other donors to identify the priority funding areas for the reconstruction of Ukraine and foster ownership, coherence and additional contributions to that end. For that purpose, Ukraine should ensure that the Plan as prepared covers its recovery, reconstruction and modernisation needs in an integrated manner, identifying to what extent the measures of the Plan are expected to be financed by the Union through the Facility. In preparing the Plan, Ukraine should take into account support provided under other Union programmes *as well as from other donors*. Ukraine should develop its Plan ensuring that other donors are able to contribute to supporting the measures of the Plan, including by increasing the funding available under the Facility. ***The Plan should ensure there is a proper coordination and complementarity with relevant donors and international financial institutions.***
- (67) While the Ukraine Plan should constitute the basis for the support provided under the first pillar of the Facility, it should also provide a reference for the support to be provided under the second and third pillars of the Facility. The measures financed under the second and third pillar should support the objectives and the implementation of the Plan.
- (68) The Ukraine Plan should include reform and investment measures, along with the qualitative and quantitative steps that warrant satisfactory fulfilment of those measures, and an indicative timetable for the implementation of those measures. Measures started from 1 January 2023 onwards should be *exceptionally* eligible.
- (69) The Plan should set out conditions reflecting progress expected to be made in the implementation of the measures it contains. Those conditions should take the form of qualitative or quantitative steps. Those steps should be planned for no later than 31 December 2027, although the overall completion of the measures to which such steps refer may extend beyond 2027. Given the need to ensure the macro-financial stability of Ukraine while supporting its recovery, reconstruction and modernisation efforts in view of the accession to the Union, the Plan should, in particular, include conditions linked to (i) essential requirements, such as macro-financial stability, budget oversight, and public financial management, which may be defined so as to reflect satisfactory progress towards fulfilment; and (ii) sectoral and structural reforms and investments set out in the Plan.

Payments should be structured accordingly around such categories of conditions, reflecting the objectives of the Facility.

- (70) The preparation and implementation by Ukraine of the Plan should take particular account of the situation in Ukraine's regions and municipalities, having regard to their specific needs for recovery and reconstruction, reform, modernisation and decentralisation, and should be done in *meaningful* consultation with regional, local, urban and other public authorities *as well as civil society organisations* in accordance with the multi-level governance principle and taking into account a bottom-up approach. *When available, local recovery plans should be taken into account.* In this context, the Plan should in particular enhance the economic, social, environmental and territorial development of Ukraine's regions and municipalities, support the decentralisation reform across Ukraine and convergence towards the Union's standards; it should also ensure the involvement of sub-national authorities, in particular municipalities, in decision-making on the use of support in the reconstruction process at local level, and that the reconstruction projects selected and implemented by such sub-national authorities constitute an adequately substantial share of the support.
- (70a) *The completion of the decentralisation reform as a sustainable and irreversible element of multi-level governance in Ukraine is an important priority. This should include a clear delineation of powers between central and local levels, appropriate internal structures for municipal administrations, and a proportionate framework of supervision of local authorities in line with the European Charter of Local Self-Government, as well as continuing the work on granting legal personality to municipalities under public law based on European practice and in line with the constitutional order of Ukraine.*
- (71) The Plan should also include *a detailed* explanation of Ukraine's system *and planned measures* to effectively prevent, detect and correct irregularities, corruption *and in particular fraud, all forms of corruption, including high-level corruption, or any other illegal activity affecting the Union's financial interests*, and conflicts of interests, *as well as to effectively investigate and prosecute offences affecting the funds provided under the Facility, and of the arrangements that aim to avoid double funding from the Facility and other Union programmes or donors.* ■ Measures under the Plan should, where appropriate, *contribute* to ensuring an efficient *and transparent* management and control system. Such measures should be implemented by Ukraine by an indicative date which *should* be set, as appropriate depending on each measure, over the course of the lifetime of the Facility.

- (72) The Commission should assess the Ukraine Plan based on the list of criteria set out in this Regulation. In case of a positive assessment of the Plan, the Commission should submit a proposal for the approval of the Plan by the Council.
- (73) Given the uncertainties and the need for flexibility in the implementation of the Facility, it should be possible for Ukraine to make a reasoned request to the Commission to make a proposal to amend the Council implementing decision, where the Ukraine Plan, including relevant qualitative and quantitative steps, is no longer achievable by Ukraine, either partially or totally, because of objective circumstances. The Commission may, in agreement with Ukraine, also make a proposal to amend the Council implementing decision, in particular to take into account *changes in the circumstances allowing for an increase in ambition or* a change of the amounts available. Ukraine should also be able to make a reasoned request to amend the Plan, including by proposing addenda where relevant, to take into account additional funding available from other donors or from other sources .
- (74) Financial support for the Ukraine Plan should be possible in the form of a loan. In the context of Ukraine's urgent financing needs, it is appropriate to organise the financial assistance under the diversified funding strategy provided for in Article 220a of Regulation (EU, Euratom) 2018/1046 and established as a single funding method therein, which is expected to enhance the liquidity of Union bonds and the attractiveness and cost-effectiveness of Union issuance.
- (75) Given the situation of Ukraine caused by Russia's war of aggression and to support Ukraine on its long-term stability path, it is appropriate to provide loans to Ukraine on highly concessional terms with a maximum duration of 35 years and to not start the repayment of the principal before 2034. It is also appropriate to derogate from Article 220(5), point (e), of Regulation (EU, Euratom) 2018/1046 and to allow the Union the possibility to cover, for the period from 1 January 2024 to 31 December 2027, the interest rate costs (cost of funding and cost of liquidity management) and to waive the administrative costs (cost of service for administrative overheads) that would otherwise be borne by Ukraine. The borrowing costs subsidy should be granted as an instrument deemed appropriate to ensure the effectiveness of the support under the Facility within the meaning of Article 220(1) of Regulation (EU, Euratom) 2018/1046.

- (76) It should be possible for Ukraine to request the interest rate subsidy and the waiver of administrative costs each year.

- (77) The financial liability from loans under this Regulation should not be supported by the External Action Guarantee, by derogation from Article 31(3), second sentence, of Regulation (EU) 2021/947. Loans type of support under the Facility should constitute financial assistance within the meaning of Article 220(1) of Regulation (EU, Euratom) 2018/1046. In considering the financial risks and the budgetary coverage, no provisioning should be constituted for the financial assistance in the form of loans under the Facility, as proposed to be guaranteed over and above the ceilings, and, by derogation from Article 211(1) of Regulation (EU, Euratom) 2018/1046, no provisioning rate should be set.
- (78) It is important to guarantee both flexibility and programmability as well as stability in providing Union support to Ukraine. For that purpose, payments under the Facility should occur according to a fixed quarterly schedule, subject to availability of funding, based on a payment request submitted by Ukraine and following *the assessment* by the Commission of the satisfactory fulfilment of the relevant conditions. In case *of a positive assessment, the Commission should submit without undue delay a proposal for a Council implementing decision establishing the satisfactory fulfilment of the conditions for payments. On the basis of the Council implementing decision, the Commission should adopt a decision authorising the disbursement. In case* a condition is not fulfilled in accordance with the indicative timeline set in the decision approving the Plan, the Commission should deduct from the payment an amount corresponding to those conditions *following a methodology for partial payment*. The disbursement of the corresponding withheld funds could take place during the next payment window and up to twelve months after the original deadline set out in the indicative timeline, provided the conditions have been fulfilled.
- (79) In order to ensure that Ukraine has access to sufficient financing to cater for its macro-financial stability needs and initiate the recovery, reconstruction and modernisation of the country, Ukraine should have access to up to 7% of the *loan* support ■ in the form of a pre-financing, subject to availability of funding and to the respect of the precondition for the support to Ukraine under the Facility.
- (80) By way of derogation from Article 116(2) and (5) of Regulation (EU, Euratom) 2018/1046, it is appropriate to set the payment deadline starting from the date of the communication of the decision authorising the disbursement to Ukraine and to exclude the payment of default interest by the Commission to Ukraine.

- (80a) *In light of the need to ensure the continued macro-financial stability of Ukraine, it is appropriate that, if the Framework Agreement is not signed or the Ukraine Plan is not adopted, exceptional support should be provided to Ukraine for a period of up to six months starting from 1 January 2024. The support should be subject to having made satisfactory progress on the preparation of the Ukraine Plan and to conditions to be agreed in a Memorandum of Understanding between the Commission and Ukraine. The MoU should establish in particular policy conditions, indicative financial planning and the reporting requirements, proportionate to the duration of the financing. The policy conditions should include commitment to the principles of sound financial management with focus on anti-corruption and anti-money laundering, as well as measures to improve revenue management, and should build on the measures already implemented by Ukraine under previous macro-financial assistance programmes.*
- (81) Transparency in the implementation of the Facility is an important requirement of Union support. Ukraine should publish twice a year data on persons, entities receiving amounts of funding *cumulatively* exceeding the equivalent of EUR **100 000** for the implementation of reforms and investments specified in the Ukraine Plan. The information should not be published, *if duly justified*, where disclosure risks threatening the rights and freedoms of the persons, entities concerned or seriously harming the commercial interests of the recipients. The framework agreement should include precise rules and a timeframe on the collection of data by Ukraine and the access for the Commission and *the European Anti-Fraud Office (OLAF), the European Court of Auditors and, where applicable the European Public Prosecutor's Office (EPPO)* including as regards the format of the information.
- (82) Under pillar II of the Facility, an investment framework should be set up, aiming to support recovery and reconstruction investments undertaken by *the Ukrainian authorities*, private sector companies, municipalities, state-owned enterprises or other actors. The Ukraine Investment Framework should address priorities identified in the Ukraine Plan, and support its objectives and its implementation. The Ukraine Investment Framework should involve Ukrainian authorities in its governance *as appropriate*.
- (83) The investment framework should constitute an integrated financial package supplying financing capacity in the form of financial instruments, budgetary guarantees and blending operations in Ukraine. Support under the Ukraine Investment Framework should be

implemented in indirect management, notably drawing on the financial and technical capacities of international financial institutions, European development finance institutions, *bilateral European finance institutions and export credit agencies*, including their participation to the risk linked to investments with their own resources. Given the scale of recovery and reconstruction investments in Ukraine that will require risk-sharing, it is necessary for the Union to establish a dedicated guarantee capacity, the Ukraine Guarantee. Operations covered by the Ukraine Guarantee will be implemented in accordance with Article 208(4) of Regulation (EU, Euratom) 2018/1046. Export credit agencies and other financial institutions providing trade facilitation support may act as financial intermediaries. In implementing and managing the Ukraine Guarantee, the Commission should ensure close coordination with support implemented in the framework of the European Fund for Sustainable Development Plus established under Regulation (EU) 2021/947. *The Ukraine Guarantee should benefit sovereign, sub-sovereign, non-commercial and commercial entities and the private sector.*

- (83a) *Given its role under the Treaties, the EIB should be a partner in the implementation of operations under the Ukraine Guarantee. For this reason, the EIB Group should be entrusted until 31 December 2025 with the implementation of a 25% dedicated indicative minimum amount of the Ukraine Guarantee for operations with sovereign counterparts and non-commercial sub-sovereign counterparts. In order to ensure the full use of the Ukraine Guarantee, after that date the unused part of the dedicated amounts should become available to all eligible counterparts for all types of operations.*
- (83b) *The eligible counterparts should also, upon request, provide the Commission with any additional information necessary to fulfil the Commission's obligations pursuant to this Regulation, together with information regarding compliance with human rights, and social, labour and environment standards.*
- (83c) *All eligible counterparts and eligible entrusted entities should take utmost care to avoid, report and counter any corrupt practices, favouritism or undue regional or sectoral concentration of resource allocation or use and require dedicated reporting and auditing on those aspects, where relevant.*
- (84) The flexibility of the support under the Facility should be enhanced by providing for flexible implementation of the Ukraine Guarantee, which might be granted gradually. It is

appropriate to derogate from Article 211(2), second sentence, of the second subparagraph of Regulation (EU, Euratom) 2018/1046 to allow the constitution of provisioning until 31 December 2027 to be equal to the amount of provisioning corresponding to the guarantee granted instead of the amount of global provisioning. As part of the derogation, it should also be possible to constitute the provisioning gradually to reflect the progress in selection and implementation of the financing and investment operations supporting the objectives of the Facility, instead of reflecting the financial statement referred to in Article 211(2), second sentence, of the second subparagraph of Regulation (EU, Euratom) 2018/1046.

- (85) In order to efficiently use the funds under this pillar, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission in respect of amending the provisioning rate for the Ukraine guarantee. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure a simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and to the Council.
- (85a) *To facilitate the private investment and the development of small and medium businesses, it is necessary to dedicate at least 15% of the guarantees provided by the Ukraine Guarantee to start-ups, Small and Medium-sized Enterprises (SMEs), as defined in Article 2 of the Annex to Recommendation 2003/361/EC, and to report and track the allocation of such portion of funds.***
- (86) Under pillar III of the Facility, support should mainly aim at progressively aligning to Union rules, standards, policies and practices ('acquis') with a view to future Union membership, thereby contributing to the implementation of the Ukraine Plan. Relevant recommendations of international bodies, such as the Council of Europe and the Venice Commission should also be taken into account in this process. Support should also aim at strengthening ***democratic and judicial institutions, including courts, and the capacities of stakeholders, including local authorities***, social partners, civil society organisations, ***including their public scrutiny role***.
- (86a) *The resources from Pillar III should also be used to finance the borrowing costs of the Facility as well as identified borrowing costs and provisioning of budgetary guarantees***

deriving from previous support for Ukraine.

- (87) In accordance with Regulation (EU, Euratom) 2018/1046, Regulation (EU, Euratom) 883/2013 of the European Parliament and of the Council and Council Regulations (EC, Euratom) No 2988/95, (Euratom, EC) No 2185/96 and (EU) 2017/1939, the financial interests of the Union are to be protected by means of ***effective*** measures, including measures relating to the prevention, detection, correction and investigation of irregularities, fraud, corruption, conflict of interest, double funding, to the recovery of funds lost, wrongly paid or incorrectly used, ***and measures to effectively investigate, prosecute and bring to judgment the criminal offences affecting the funds provided under the Facility. The European Public Prosecutor's Office (EPPO) is empowered, in accordance with Regulation (EU) 2017/1939, to investigate and prosecute criminal offences affecting the financial interests of the Union. The Ukrainian competent authorities should treat, without delay, mutual legal assistance requests and extradition requests issued by EPPO and Member States' competent authorities concerning criminal offences affecting the funds under the Facility.***
- (88) In particular, in accordance with Regulations (Euratom, EC) No 2185/96 and (EU, Euratom) No 883/2013, the European Anti-Fraud Office (OLAF) should be in a position to carry out administrative investigations, including on-the-spot checks and inspections, with a view to ***detecting and*** establishing whether there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union ***and to reporting any criminal conduct to the EPPO, in accordance with Article 24(1) of Regulation (EU) 2017/1939.***
- (88a) ***The Commission should strive to make available to Ukraine an integrated and interoperable information and monitoring system including a single data-mining and risk-scoring tool to access and analyse the relevant data in compliance with EU data protection principles and with applicable data protection rules. Where such a system is available, Ukraine should use and feed the relevant data into the system, including with support under Pillar III. The data should allow the Commission and relevant Ukrainian authorities in charge of implementing and controlling the funds to assess risks and prevent irregularities.***
- (89) In accordance with Regulation (EU, Euratom) 2018/1046, the necessary rights and access should be granted to the Commission OLAF, the European Court of Auditors and, where applicable the European Public Prosecutor's Office (EPPO) where relevant, including from

third parties involved in the implementation of Union funds. Ukraine should also report irregularities in relation to the use of the funds to the Commission.

- (90) The reinforcement of internal control systems, ***including ex-ante controls***, the fight against ***any forms of corruption, favouritism or fraud***, the promotion of transparency, ***robust, accountable and transparent*** administration, and efficient public financial management, are important reform priorities for Ukraine and should be supported by the Facility.
- (91) The Commission should ensure that the financial interests of the Union are effectively protected under the Facility. To this end, an independent Audit Board should be set up to provide the Commission with information on possible mismanagement of funds. Such information should be made available to OLAF, and where appropriate to the relevant Ukrainian authorities. The Commission, with the assistance of the Union delegation, should be entitled to perform ***regular*** checks on how Ukraine implements funds along the whole project life cycle. The Audit Board should ensure ***a*** regular dialogue and cooperation with the European Court of Auditors ***as well as with the Accounting Chamber of the Verkhovna Rada***.
- (92) While it is primarily the responsibility of Ukraine to ensure that the Facility is implemented in compliance with applicable standards, taking into account the principle of proportionality and the specific conditions under which the Facility will operate, the Commission should be able to receive sufficient assurance from Ukraine in that regard. To that end, Ukraine should commit in the Plan to improve its current management and control system and to recovering amounts misused. Ukraine should establish a monitoring system feeding into an annual progress report. Ukraine should collect data and information allowing the prevention, detection and correction of irregularities, fraud, corruption and conflicts of interests, in relation to the measures supported by the Facility. The framework agreement and the financing and loan agreements should provide for the obligations of Ukraine to ensure the collection of, and access to, ***in compliance with EU data protection principles and with applicable data protection rules***, adequate data on persons and entities receiving funding, ***including beneficial ownership information***, for the implementation of measures of the Ukraine Plan.
- (93) The Union financial interests should also be protected when the funds are implemented in direct management through grants and procurement and indirect management with pillar assessed entities, in particular under the second and third pillar of the Facility. ***Only pillar***

assessed entities should be selected to implement Union funding under indirect management under the Ukraine Facility.

- (94) *Assistance under the Facility should be implemented by work programmes referred to in Article 110 of Regulation (EU, Euratom) 2018/1046.*
- (95) The communication capacities of Ukraine should be enhanced in order to ensure ■ and public support for and understanding of Union values and the benefits and obligations of potential Union membership, while addressing disinformation, **foreign interference, and safeguarding strong and free pluralistic media**. Visibility of the Union funding should also be ensured.
- (96) The Commission should ensure clear monitoring and evaluation mechanisms are in place in order to provide effective accountability and transparency in implementing the Union budget, and to ensure effective assessment of progress towards the achievement of this Regulation's objectives.
- (97) The Commission should assess each year the implementation of support under the Ukraine Facility. It should allow the Committee established by this Regulation to have adequate information to assist the Commission. For the effective monitoring of implementation, Ukraine should report once a year in an annual progress report on the implementation. **This report should also be made available to the European Parliament and the Council.** Such reports prepared by the government should be appropriately reflected in the Ukraine Plan. Proportionate reporting requirements should be imposed on recipients of Union funding implemented under the second and third pillars of the Facility.
- (98) In order to ensure uniform conditions for the implementation of this Regulation, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council¹³.
- (98a) ***In view of the importance of the financial effects of the support to Ukraine under the Facility and of the consequences of certain decisions to be taken for the implementation of the Facility in light of the specific situation of Ukraine, implementing powers should be exceptionally conferred on the Council in the cases identified by this Regulation.***

¹³ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by the Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

- (99) The Commission *should* duly take into account Council decision 2010/427/EU and the role of the EEAS where appropriate, and in particular when monitoring the fulfilment of the precondition for Union support, in its assessment of the Ukraine plan and while gathering advice on the Ukraine investment framework.
- (100) Since the objectives of this Regulation cannot be sufficiently achieved by the Member States but can be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 TEU. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary to achieve those objectives.
- (101) In order to ensure continuity in providing support in the relevant policy area, this Regulation should enter into force as a matter of urgency on the day following that of its publication in the Official Journal of the European Union,

HAVE ADOPTED THIS REGULATION:

Article 4

1. The *Facility* shall *strive to ensure a balanced and needs-based* allocation and use *of resources and an appropriate geographical balance of projects.*
2. Support from the Facility shall be additional to the support provided under other Union programmes and instruments. Activities eligible for funding under this Regulation may receive support from other Union programmes and instruments provided that such support does not cover the same cost.
3. In order to promote the complementarity, *coherence* and efficiency of their action and initiative, the Commission and the Member States shall cooperate and shall strive to avoid duplication between assistance under this Regulation and other assistance provided by the Union, the Member States, third countries, multilateral and regional organisations and entities, such as international organisations and the relevant International Financial Institutions, agencies and non-Union donors, in line with the established principles for strengthening operational coordination in the field of external assistance, including through enhanced coordination with Member States at local level and through the harmonisation of policies and procedures, in particular the international principles on development effectiveness. *In order to avoid duplication, increasing ownership from the Ukrainian authorities and simplifying administrative work, support under the Facility shall, as far*

as possible, be integrated into the international efforts towards a financial architecture for the recovery of Ukraine and coordinated with relevant donors and international financial institutions.

4. Activities under the Facility shall *comply, to the extent possible in a war-torn country, with the climate and environmental standards of the Union. Those activities shall mainstream climate change mitigation and adaptation, environmental protection, and biodiversity conservation*, human rights, democracy, gender equality and *non-discrimination*, where relevant, disaster risk reduction *and energy infrastructure safety*, and shall support progress towards the Sustainable Development Goals, promoting integrated actions that can create co-benefits and meet multiple objectives in a coherent way, *contributing to poverty reduction and promoting peaceful and inclusive societies. The Facility shall not support activities or measures which are incompatible with Ukraine’s National Energy and Climate Plan, if available, with Ukraine’s Nationally Determined Contribution under the Paris Agreement, or that promote investments in fossil fuels, or that cause significant adverse effects on the environment or the climate *or biodiversity*, unless such activities or measures are strictly necessary to achieve the objectives of the Facility, taking into account the need to rebuild and modernise infrastructure *and rehabilitate nature* damaged by the war in a resilient way, and they are accompanied, where relevant, by appropriate measures to avoid, prevent or reduce and, if possible, offset these effects.
6. In line with the principle of inclusive partnership, **■** the Commission shall strive to ensure, *as appropriate, democratic scrutiny in the form of consultation by the Ukrainian government of the Verkhovna Rada in accordance with the constitutional order of Ukraine, as well as of* relevant stakeholders, including local and regional authorities, social partners and civil society, *including vulnerable groups, so as* to allow them to *participate in shaping* the design, implementation of activities eligible for funding under this Facility, and in the related monitoring, *scrutiny and evaluation* processes, *as relevant. The involvement referred to in this paragraph shall seek to represent the pluralism of the Ukrainian society and business community and the inclusion of different communities*

Article

41 Entry

into force

This Regulation shall enter into force on the day following that of its publication in the Official Journal of the European Union.

This Regulation shall be binding in its entirety and directly applicable in all Member States. Done at Brussels,

For the European Parliament

For the Council

***Joint declaration by the European Parliament and the Council
on the appropriate budgetary nomenclature for the Ukraine Facility***

“Without prejudice to the prerogatives of the budgetary authority in the framework of the annual budgetary procedure and to the Commission’s powers to establish the draft budget, the European Parliament and the Council invite the Commission to propose the creation of at least one budget line for Pillar I of the Ukraine Facility, two budget lines under Pillar II, including for the provisioning of the Common Provisioning Fund for the Ukraine Guarantee established under Chapter IV of the Ukraine Facility Regulation, three budget lines under Pillar III for the Union accession assistance and other measures, the borrowing costs subsidies and the provisioning of the Common Provisioning Fund – Legacy, and a specific budget line for technical and administrative assistance expenditure for the implementation of the Facility.”

***Joint declaration of the European Parliament, the Council and the Commission
relating to the exceptional nature of the Ukraine Facility***

The European Parliament, the Council and the Commission share the view that the Ukraine Facility is an exceptional medium-term instrument of high geopolitical importance adapted to the uncertainty and unprecedented challenges of supporting a country at war with direct implications for the security of the Union. As a result, the Ukraine Facility provides a balance between flexibility and programmability of the Union’s response to address Ukraine’s financing gap, recovery, reconstruction and modernisation needs, while supporting Ukraine’s reform effort as part of its accession path to the Union. The objectives, financing and governance arrangements agreed for the Ukraine Facility respond to the exceptional and specific context and challenges in relation to which this particular Facility has been adopted.

This solution for Ukraine should not therefore be considered as a precedent for future instruments of economic assistance to third countries.
