

Building tomorrow's partnership today

Dear Victor,

Again this year, EIF will partner with the [Transatlantic Policy Network \(TPN\)](#) on the **Transatlantic Week 2023**, which will take place in person in Washington DC from the afternoon of Monday 24 July through the morning of Thursday 27 July 2023. All members of EIF are invited to attend.

**Please find the draft outline programme in pdf [here](#).**

**To register please email**

With the theme 'Fireproofing the EU-US Relationship: looking to 2030 and beyond', the purpose of the Transatlantic Week 2023 is to discuss and develop the elements of a constructive and forward-looking agenda for US-EU cooperation. Participants are drawn from the US Congress, the US Administration, the European Parliament and other EU institutions as well as from business, academia, think tanks, and civil society organizations.

Participation in Transatlantic Week is by invitation only, not transferable, and on a first-come-first-served basis. All registered participants will receive more details and updates from TPN as the programme shapes up. No travel expenses or reimbursements are offered.

Should you wish to extend the invitation to a colleague, please let us know.

Looking forward to hearing from you.

Kind regards,

Maria Rosa Gibellini - *EIF Director General*
