Re: Request for Extension to Provide Written Comments Ahead of Informal Hearing on Trade Regulation Rule on Unfair or Deceptive Fees

Dear Ms. Tabor:

The U.S. Chamber of Commerce requests that the Federal Trade Commission extend the comment period by at least a week for written submissions associated with the April 24th informal hearing on the proposed regulation on unfair or deceptive fees.

The incredibly short turnaround time is insufficient. The notice published in the Federal Register comes less than a month ahead of the informal hearing and commenters invited to participate were given only two weeks, until April 10th, to submit anything in writing.

Thank you for your consideration of this matter.

Sincerely,
