 **GRIESSER**

Inspired by
the **Sun.**

Amiamo il sole, è la nostra fonte d'ispirazione quotidiana. Siamo pionieri nel creare un perfetto equilibrio fra sole e ombra. Nascono così soluzioni confortevoli e durature, dotate di un eccellente design.

Offriamo idee sostenibili per il mondo di domani.

Scegliete i vostri
colori preferiti.

*Tutti i modelli vengono prodotti con inchiostri da stampa standard e si possono pertanto scostare dalla tonalità cromatica originale. Con riserva di eventuali modifiche.

Amiamo la luce, fonte dei colori e della nostra ispirazione. Nella nostra brochure scoprirete più di 300 tonalità di colore, dall'avorio al porpureo. Offriamo l'intera gamma cromatica per permettervi di progettare la protezione solare in base ai vostri desideri.

Create il vostro colore.

Invece di limitarsi all'argento, al grigio e al nero, Griesser vi permette di scegliere il colore che preferite.

E se non riesci a trovarlo, porta la tua foto preferita o un campione del colore che vuoi. .

Lo analizziamo con uno spettrofotometro e creiamo il colore su misura per voi. Il sistema di protezione solare si armonizza così perfettamente ai colori della vostra casa.

Brillante. Elegante. Con rivestimento ottimale.

Vogliamo che i nostri prodotti durino a lungo e che resistano in ogni situazione e luogo. Per ogni singolo prodotto abbiamo quindi sviluppato un rivestimento ottimale combinando tonalità, grado di brillantezza e struttura. Per la brillantezza e l'intensità che più amate. Per una protezione solare che riflette e assorbe la quantità di luce a seconda della stanza e del clima. Per la finitura finale, particelle aggiuntive creano un effetto particolarmente raffinato, per tende veneziane, tende di facciata, avvolgibili, persiane e tende da sole di cui gioire ogni giorno.

Leader nel creare nuove tendenze.

Griesser offre la più ampia gamma cromatica per la protezione solare. Durante i 140 anni di storia aziendale, abbiamo continuato a perfezionare l'arte della colorazione del legno e dell'alluminio. Oggi possediamo degli impianti di verniciatura e di rivestimento a polvere e controlliamo l'intero processo di colorazione.

Ogni anno introduciamo nuovi colori. Restiamo così al passo con i tempi e creiamo nuove tendenze.

BiColor

Personalizzazione con BiColor.

Lamelle rivestite in due colori - colori diversi all'interno e all'esterno. Per esempio, potete scegliere un colore per l'esterno che permetta alla tenda veneziana esterna di fondersi visivamente con la vostra facciata. D'altra parte, il colore dell'interno può essere adattato al colore specifico della stanza.

BiColor, esclusivamente da Griesser. Osate usare il colore!

Trattamento extra per luoghi estremi.

La resistenza delle veneziane in luoghi costieri o molto polverosi può essere prolungata grazie a uno speciale rivestimento supplementare. Saremo lieti di consigliarvi.

Per la vostra regione.

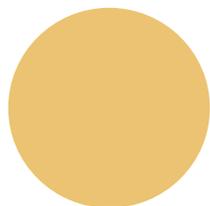

A volte, i colori delle facciate esterne sono regolati da direttive regionali. Possiamo soddisfare facilmente qualsiasi direttiva poiché la fornitura di protezioni solari nei colori tipici delle regioni fa parte dei nostri servizi standard.

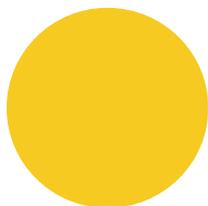

Qualità certificata.

Tutti i nostri fornitori di vernici e polveri dispongono del marchio di qualità QUALICOAT, valido a livello internazionale.

Sostenibilità di Griesser.

Vogliamo stabilire nuovi standard, fedeli allo spirito pionieristico ed ai valori che ci accompagnano sin dalla fondazione nel 1882. Grazie a essi siamo diventati uno dei maggiori fornitori di protezioni solari di qualità in Europa, nonché uno dei più attenti in ambito di tutela ambientale e vogliamo fare ancora molto anche in futuro.

Per il mondo di domani ci impegniamo già oggi: Griesser non è solo uno dei maggiori fornitori di protezioni solari d'alta qualità in Europa e anche uno dei più attenti in ambito di tutela ambientale.

Per noi occuparsi di sostenibilità non è una moda, ma qualcosa di dovuto. La protezione ambientale e lo sviluppo sostenibile sono valori che dimostriamo con fatti concreti. Nella nostra sede principale di Aadorf (Svizzera) produciamo energia solare sul tetto del nuovo impianto di verniciatura a polvere e restiamo puliti. Il nostro sistema di rivestimento per lamelle di alluminio, unico al mondo, pulisce i nastri di alluminio senza l'utilizzo di sostanze chimiche, risparmiando una notevole quantità di acqua.

Attenti nella scelta dei fornitori. Riteniamo importante che anche i nostri fornitori condividano i nostri principi. Per i rivestimenti in polvere, collaboriamo con la ditta TIGER. L'azienda è impegnata quanto noi nel risparmio energetico. A tal fine, TIGER ha installato luci al LED e rilevatori di movimento, raffredda gli impianti di produzione utilizzando falde acquifere e li riscalda sfruttando il calore dei macchinari.

Brillux, il nostro partner per la verniciatura a liquido, ha ottenuto già nel 1978 la certificazione ecologica "Blauer Engel" per prodotti particolarmente ecologici. L'azienda si affida inoltre al fotovoltaico e alla cogenerazione, riscalda uffici, impianti di produzione e magazzini recuperando l'energia di produzione. E con una particolare tecnica di pulizia, l'azienda riduce al minimo il consumo d'acqua. Mäder, il nostro fornitore di vernici per lamelle, sviluppa e produce già dagli anni Sessanta vernici a base d'acqua che non inquinano l'ambiente con composti organici volatili. Inoltre, nel 2006 Mäder ha installato nella sede di Killwangen in Svizzera un impianto di depurazione dell'aria riducendo così in modo significativo le emissioni.

Griesser intrattiene da 15 anni una partnership con myClimate per finanziare progetti di forte impatto ecologico, economico e sociale. Griesser ha fatto del risparmio energetico un suo obiettivo, come dimostrano le misure già adottate e previste per il futuro.

Griesser conferma il suo impegno in ambito di tutela ambientale e sviluppo sostenibile dandosi obiettivi concreti. Vogliamo ridurre la nostra impronta ecologica: il nostro piano per i prossimi tre decenni prevede un parco autoveicoli ad emissione 0 entro il 2030 e stabilimenti di produzione clima-neutrali entro il 2035.

Griesser, il vostro partner per soluzioni confortevoli.

Tende di facciata.
Solozip®, Soloscreen®, Soloroll®.

Avvolgibili.

Rolpac®, Alucolor®, Tradi PUR, Renobloc, Minicolor®.

Automatizzazioni.

Compatibile Smart Home & Smart Building.

Persiane.

Persiane a battente e scorrevoli.

Griesser offre una varietà infinita di sistemi di protezione solare. Semplici, robuste e efficienti, sia a livello estetico che per quel che riguarda il comfort termico, le nostre soluzioni si adattano perfettamente a tutti gli stili architettonici.

Incorporate nell'edificio a formare un insieme organico o come chiaro accento visivo: le soluzioni di qualità Griesser permettono questo ed altro.

Tende veneziane.

Metalunic[®], Grinotex[®], Lamisol[®], Solomatic[®], Aluflex[®].
