PRODUCT BULLETIN

Hoosier to Update SMW Rain Tire for 2023 Competition

Lakeville, IN – January 26th, 2023. Hoosier Racing Tire is taking measures to streamline the production of the SMW rain tire by adapting it to a standardized casing or “platform” that aligns with all other radial wet tires produced in its manufacturing facility. This change will result in a lighter tire, but the SMW compound, molded tread pattern, tread depth, component properties, and tire dimensions will remain the same.

Item Number	Tire Size	Load/Speed Rating	Tread Pattern	Tread Width	Approx. Dia.	Approx. Circ.	Recom Rim	Measured Rim	Section Width	Compound
46126	P205/50R15	84H	Circuit OT Radial Wet	7.1	23.5"	73.8"	6.5- 7.5"	6.5"	8.2"	SMW

The updated SMW is expected to be in stock by February 20, 2023 and will be assigned a new “46126” part number. These tires can be combined or mixed with the existing SMW as needed. For more information or to place an order, please contact your nearest Hoosier Racing Tire Distributor. A complete list of locations can be found on our website, www.hoosiertire.com.
