

Sample customers	Data volume	UF-60 / UF-60 LTE	UF-160	UF-260	UF-360	UF-760	UF-1060
 Medical offices, pharmacies etc. (individual sites)	 Low data volume e. g. e-mail, calendar, web surfing, VoIP, correspondence, invoices	5 devices / workplaces	15 devices / workplaces	50 devices / workplaces			
 Classic office environments, administrations etc. (individual sites)	 Average data volume e. g. web-based office applications, conferencing solutions, presentations		5 devices / workplaces	25 devices / workplaces	50 devices / workplaces	200 devices / workplaces	800 devices / workplaces
 Creative agencies, architectural offices etc. (individual sites)	 High data volume e.g. technical drawings, videos, web-based image, sound, and video editing			5 devices / workplaces	10 devices / workplaces	40 devices / workplaces	200 devices / workplaces
 Schools	 Inconsistent data volume Different security level per network: e. g. administration network with UTM, but not in the student Wi-Fi			< 25 teachers < 400 students	< 70 teachers < 900 students	> 70 teachers > 900 students	
 Company headquarters	 Average data volume Central security procedures or branch office security for sites via the headquarters				< 25 small sites 0 large sites	< 100 small sites < 5 large sites	< 500 small sites < 20 large sites

Attention: The provider line could limit the data volume.
For the data volume, the LAN and WAN traffic must be considered additively.
