

# Router Matchmaker

How do you find the ideal router for your network quickly and easily?  
Simply answer the following questions.

For projects that require the integration of professional telephony functions, we recommend the LANCOM 2100EF, the 1900 series, and the LANCOM VoIP routers. All LANCOM gateways and routers can be further upgraded with various software options, e. g. with an All-IP function, a content or BPJM filter, additional VPN channels, and much more.

For operation in a virtualized environments, the LANCOM vRouter is also available with a comprehensive range of functions and numerous security features. The LANCOM vRouter can be used as a virtual VPN router (vCPE), central-site VPN gateway (vGateway), or as a WLAN controller (vWLC).
