FOR OPERATIONAL RESILIENCE**

Terms of Reference for Financial Sector Forum for Operational Resilience (FSOR)

The Financial Sector forum for Operational Resilience (FSOR) is a forum for collaboration between authorities and key financial sector participants. The FSOR aims to increase operational resilience across the sector, including resilience to cyberattacks.

The tasks of the FSOR are to:

- Ensure a common overview of operational risks that may have a cross-sector impact and that could potentially pose a threat to financial stability in Denmark.
 - Identify critical participants and core functionality
 - Map interdependencies
 - Identify potentially systemic cross-sector risks
- Decide on and ensure implementation of joint measures to ensure financial sector resilience to major operational incidents, including cyberattacks.
 - Establish and regularly test cross-sector crisis response plans to manage serious operational incidents, including cyberattacks.
 - Ensure a common understanding of the decisions that the crisis management, work groups and other initiatives under the auspices of the FSOR are empowered to make.
 - Set up collaboration with relevant existing or future cooperation forums/sector groups.
- Create a framework for collaboration and knowledge-sharing, including
 - Sharing experience in relation to threats, risks and countermeasures.
 - Mutual exchange of relevant information obtained from other forums.
