

List of Allowable Major Equipment for Alteration and Renovation Projects of IDeA Program

Animal cages/racks - fixed or movable	Glassware dryers
Animal tagging and monitoring systems	Heating systems
Animal Watering System	Ice machines
Autoclaves/sterilizers	Incubators and bioreactors
Backdraft Hood	Isolation cubicles
Backdraft Station	Laboratory benches
Bedding dispenser	Laminar Flow Station
Bedding disposal system	Lights and station lamps
Biosafety cabinets and transfer stations	Metabolic and ventilated caging systems
Bottle filler	Operating room lights
Building monitoring system	Pass through refrigerator
Cage and bottle washers	Radiation Monitoring Equipment
Central air-conditioning and ventilating systems	Reagent and chemical mixing station
Chemical waste disposal systems	Refrigeration machinery and equipment
Cabinetry	Robotic cage washer systems
Dish washers	Sample storage systems
Distilled water systems	Surgical suite equipment
Down draft table	Tables fixed/movable
Effluent decontamination system	Telecommunication equipment
Emergency eyewash/showers	Telemetry/building monitoring systems
Emergency power generators	Tissue digesters
Enrichment elements in an animal facility such as ladders or poles	Tunnel and rack washers
Environmental monitoring system	Vacuum Pumps
Fold down tables/writing surfaces	Ventilated racks and cages
Fume hoods and laminar flow stations	Waste anesthesia gas disposal system
Genotyping, phenotyping and behavioral testing suites	Water purification system - benchtop
Glassware washers
