

OeNB Euro Survey Questionnaire 2010 Fall

This document contains all questions asked to respondents in the survey wave of fall 2010 of the OeNB Euro Survey in English.

The numbering of the questions corresponds to the original numbering in the questionnaires used in the relevant survey waves.

Since the questionnaire of the OeNB Euro Survey has been adjusted each year to each wave, the relative succession of the questions asked may differ for each year.

- Questions or parts of questions highlighted in **yellow** indicate that they were deleted, rephrased or have been newly added compared to the master questionnaire of the prior year. If you use questions from multiple waves, please note that a question might have been subject to changes in several survey waves.
- Questions highlighted in **green** have been copied from prior questionnaires.
- Questions, that are highlighted in **grey** are not available for outside users.

We provide the data of all survey waves to external researchers (except some questions marked in grey – see above). The penultimate wave is made available once the data quality check of the most recent wave is finalized (usually from May onward, i.e. wave 2021 is available from May 2023 onward). Information on how to access the data can be found on our website ([Data sharing - Oesterreichische Nationalbank \(OeNB\)](#)). On the website you can also find additional information, e.g., a grid of questions per wave and a description of ex post harmonized socio-demographic variables included in the dataset.

OeNB Euro Survey Questionnaire 2010 Fall

The next set of questions is about foreign currency holdings. These questions were commissioned by an European institution and are being asked in a total of ten countries. Your answers help researchers to understand the reasons why people hold euro – so this makes your input very important. We can assure you that your answers will be treated confidentially.

[FOR INTERVIEWER: Please make sure, that there is an entry for each question. If respondents hesitate to answer, tell respondents that it is ok, if they do not want to answer, but it would be important to know, whether they do not want to answer or whether they really do not know.]

19d) [ASK ALL] There are several ways in which you can hold savings. For example, one can hold cash, use bank accounts, have life insurances, hold mutual funds, etc. Please take a look at this card that lists various savings instruments – could you please select the ones you are using and rank them according to the amounts you have saved on the respective instrument. Please refer to savings you hold personally or together with your partner.

SHOW CARD

Cash	1
Savings deposits / savings accounts (in foreign or in [LOCAL CURRENCY])	2
Life insurance	3
Mutual funds	4
Stocks	5
Pension funds (voluntary contributions)	6
Bonds	7
Other	8

Current Account / transaction account/wage card [TRANSLATOR: same wording as for Q12a and Q12c] 9

Answers reflect ranking of saving instruments which are used by respondents

I have no savings	77
Do not know	88
No answer	99

Interviewer and coding/data punching instructions:

For example: A respondent has 3 savings instruments. Cash, deposits and bonds. She has most of her money on the bank account, followed by bonds and then cash.

The show card has the following appearance.

Cash	1
Savings deposits / savings accounts (in foreign or in [LOCAL CURRENCY])	2
Life insurance	3
Mutual funds	4
Stocks	5
Pension funds (voluntary contributions)	6
Bonds	7
Other	8
Current account/transaction account/wage card	9

Accordingly, the respondent answers 2, 7 and 1. The coding should be 19d_1=2, 19d_2=7 and 19d_3=1.

If the respondent does not want to answer or has no savings then 19d_1 should be 99 or 77, respectively.

Socio-demographics

For the survey waves 2007 autumn to 2012 spring, each opinion poll institute asked the key socio-demographic questions in the phrasing and categories that were considered most appropriate for the respective countries. OeNB only specified which socio-demographic characteristics had to be elicited. Thus, questions could vary across time and/or countries and socio-demographic data are harmonized ex post for the waves 2007-2012 spring at OeNB (see documentation on OeNB Euro Survey website).
