STAMP/LAMP is described in a separate manual

1. Find the menu 'All Recipients'

Recipient -> All recipients

2. Find an existing patient in the database

When you enter the menu 'All recipients', you get a variety of possibilities for entering search parameters. You can search on one parameter or combine parameters to limit the number of recipients.

The screenshot shows the 'All Recipients' search interface. At the top, there are tabs for 'All Recipients' and 'Info', and buttons for 'Search', 'Add new', 'Print', 'Statistics', and 'Reset'. Below this is a section titled '[Enter search parameters]' containing several input fields: Scandia Number (text), Nationality (dropdown), Person Number (text), Sex (dropdown), Age ≥ (text) < (text), Age at notif. ≥ (text) < (text), Surname (text), First Name (text), Transplant Center (dropdown), Recip.ABO (dropdown), Donor ABO (dropdown), Wait.time ≥ (text) < (text) months, Waiting list status (dropdown), Waiting List type (dropdown), Urgency (dropdown), and Local Urgency (dropdown). There are two sub-sections: 'STAMP' with 'Sign up' (dropdown) and 'Status' (dropdown), and 'Extra' with 'Positive infection' (dropdown) and 'Kidney Prefs.' (dropdown). Below the search fields is a table header with columns: Scandi..., Nation..., Person Number, Age, Surname, First Name, Transp..., Recip..., Height, Weight, Waitin..., Waitin..., Urgency. At the bottom, there are navigation controls: Page 0 of 0, Order by: Scandia Number ▼ Recip.ABO ▼, and 'No data to display'.

Example of a search based on a combination of three parameters:

The screenshot shows the 'All Recipients' search interface with the 'Search' button circled in red. The search parameters are: Scandia Number (empty), Nationality (empty), Person Number (empty), Sex (dropdown), Surname (empty), First Name (empty), Transplant Center: CP: København, AB0 Blood Group (dropdown), Waiting list status: N: Notified, Waiting List type: KI: Kidney, Urgency (dropdown). There are two sub-sections: 'STAMP' with 'Sign up' (dropdown) and 'Withdrawal' (dropdown), and 'Historical' with 'Status' (dropdown), 'Termination' (dropdown), and 'Waiting List' (dropdown). Below the search fields is a table with the following data:

	Scandia Num...	Nationality	Person Number	Surname	First Name	Transplant Ce...	AB0 Blood Gr...	Waiting list st...	Waiting List t...	Urgency
1				Surname: M.	First name: S.	CP: København	A	N: Notified	KI: Kidney	T: Transplant...
2				Surname: N.	First name: M.	CP: København	A	N: Notified	KI: Kidney	T: Transplant...
3				Surname: S.	First name: B.	CP: København	0	N: Notified	KI: Kidney	T: Transplant...
4				Surname: D.	First name: B.	CP: København	0	N: Notified	KI: Kidney	T: Transplant...
5				Surname: D.	First name: J.	CP: København	A	N: Notified	KI: Kidney	T: Transplant...
6				Surname: B.	First name: A.	CP: København	B	N: Notified	KI: Kidney	T: Transplant...
7				Surname: R.	First name: J.	CP: København	A	N: Notified	KI: Kidney	T: Transplant...
8				Surname: P.	First name: J.	CP: København	A	N: Notified	KI: Kidney	T: Transplant...

At the bottom of the page the total number of recipients fulfilling the search parameters are displayed (No. 1). Furthermore, the order of the list is displayed (No. 2). If you wish to change the order, click on the column headers (No. 3).

3. Register a new patient – Basic information

Click on 'Add new'

The screenshot shows the 'All Recipients' search interface. At the top right, there are buttons for 'Search', 'Add new' (highlighted with a red box), 'Print', 'Statistics', and 'Reset'. Below these is a search parameter form with the following fields:

- Scandia Number: [text input]
- Nationality: [dropdown menu]
- STEP prg.: [checkbox]
- Alive: [checkbox]
- Person Number: [text input]
- Sex: [dropdown menu]
- Age ≥ [text input] < [text input]
- Age at notif. ≥ [text input] < [text input]
- Surname: [text input]
- First Name: [text input]
- Transplant Center: [dropdown menu]
- Recip.ABO: [dropdown menu]
- Donor ABO: [dropdown menu]
- Wait.time ≥ [text input] < [text input] months
- Waiting list status: [dropdown menu]
- Waiting List type: [dropdown menu]
- Urgency: [dropdown menu]
- Local Urgency: [dropdown menu]

Below the main search area are two sections: 'AMP' and 'Extra'. The 'AMP' section contains:

- STAMP sign up: [dropdown menu]
- STAMP status: [dropdown menu]
- Active on LAMP: [checkbox]

The 'Extra' section contains:

- Positive infection: [dropdown menu]
- Kidney Prefs.: [dropdown menu]

Start entering information.

Mandatory data to fill in before getting a Scandia number is: Date of birth, Sex, Surname, First name and ABO blood group.

The person number will be validated according to the registered nationality and national rules. Furthermore, it will be checked if the patient has been registered previously in the database.

The screenshot shows the 'Recipient information' form. At the top right, there are buttons for 'Back', 'Save', 'Reset', and 'Print'. The form is pre-filled with the following data:

- Scandia Number: [empty]
- Nationality: DK: Denmark
- Sex: F: Female
- Date of Birth: 29-Apr-2002
- Person Number: 290402
- Surname: [redacted]
- First Name: [redacted]
- Transplantation History: [empty]
- Recipient Status: [empty]
- Waiting list status: [empty]
- Waiting list type: [empty]
- Urgency: [empty]
- Treatm. center: [empty]
- First regist.: [empty]
- Latest regist.: [empty]

Below the main form are several tabs: 'Basic info', 'Clinical data', 'Address/Phone', 'HLA Typing', 'Antibody Screen Test', 'Fusion', 'Acceptable Antibodies', 'Previous Mismatches', and 'Status'. The 'Basic info' tab is active and contains:

- ABO Blood Group: [dropdown menu]
- Rhesus D: [dropdown menu]
- Transplant center: AR: Aarhus
- Department: [dropdown menu]
- Notes on Patient: [text input]

At the bottom, there is a 'Waiting List' section with an 'Add new' button and a table:

Waiting List	Date of entry	Termination	Tx date	Tx number
--------------	---------------	-------------	---------	-----------

4. Register and/or update of patient information

4.1. HLA typing

Basic info	Clinical data	Address/Phone	Waiting List	HLA Typing	Antibody Screen Test	Acceptable Antibodies	Previous Mismatches	Death
Serological								
A:		<input type="text"/>	<input type="text"/>	B:		<input type="text"/>	<input type="text"/>	
CW:		<input type="text"/>	<input type="text"/>	BW4/w6:		<input type="text"/>	<input type="text"/>	
DR:		<input type="text"/>	<input type="text"/>	DQ:		<input type="text"/>	<input type="text"/>	
Genomic								
A:		<input type="text"/>	<input type="text"/>	B:		<input type="text"/>	<input type="text"/>	

Enter the HLA type or select between HLA types by pressing the dropdown menu. To select a specific type on the list, click on it.

A screenshot of a dropdown menu for HLA typing. The menu is open, showing a list of HLA types: 07, 0702, 0703, 0736, 08, 0801, 13, 1301, 1302, 14, 1401, 1402, 15, 1501, and 1502. The '1501' option is highlighted in blue. A red arrow points to the dropdown arrow icon at the top left of the menu, and another red arrow points to the '1501' option.

If you start typing, the list will narrow down

A screenshot of the HLA Typing dropdown menu with a search filter. The search box at the top left contains the number '1'. The dropdown list is filtered to show only HLA types starting with '1': 13, 1301, 1302, 14, 1401, 1402, 15, 1501, 1502, 1503, 1504, 1505, 1506, 1507, and 1508. The '1501' option is highlighted in blue.

Bw4 and Bw6 is automatically calculated from the association to the HLA type, but **not** automatically counted as part of the patient HLA. To use the calculated Bw4 and Bw6, you have to enter them into the HLA registration fields.

The screenshot shows the 'HLA Typing' tab with the following details:

- HLA - serological or equivalent:** A: 1 3, B: 51 7, Cw: , DR: , DQ: . The 'Bw4/w6' dropdown is set to 'w4' and is highlighted with a red box.
- HLA - genomic:** A: , B: , C: , DRB1: 15 10, DQB1: , DPB1: , DQA1: , DPA1: , DRB3/4/5: . The 'Calc. Bw: w4,w6' field is highlighted with a red box.
- Broad:** A: 1 3 B: 5 7 Cw: DR: 2 10 DQ: .

4.2. Antibody Screen Test

The screenshot shows the 'Antibody Screen Test' tab with the following details:

- Antibody Summary:** B+X,7;
- Calculated combined PRA:** 28 %
- Immunization:** PI: Previously immunized

In this tab, you can register new antibody results and get an overview of the antibody status.

To add a new antibody screen test result, click on 'Add new'

The screenshot shows the 'Recipient information' tab with the following details:

- Recipient information:** Scandia Number: 950234, Nationality: DK: Denmark, Date of Birth: 01-Feb-1988, Person Number: 010288, Sex: F: Female, Surname: x, First Name: x, Transplantation History: KI; LI; PA; IT; HE; LU;, Survival Status: ALIVE, Status: , Waiting List: , Urgency: , First regist.: IDW 03-Mar-2015, Latest regist.: IDW 03-Mar-2015.
- Antibody Summary:** (Empty)
- Calculated combined PRA:** 0 %
- Immunization:** ND: Not investigated, unknown
- Add new:** (Circled in red)
- Table:**

Date of sample	PRA Class I	PRA Class II	Identified Antibodies

Fill in date, PRA and technic used. If you wish to fill in antibody specificities, you can click on the arrow down and a list of values will appear. Now you can click on the specificities on the list that you wish to add.

Add new

	Date of sample	PRA Class I	PRA Class II	Identified Antibodies
1	09-Mar-2015	15	0	B13,7,8;
2	25-May-2010	0	0	
3	20-Apr-2010	0	0	
4	20-Jan-2010	10	0	
5	05-Nov-2009	10	0	

If you wish to alter/add information to an already registered result, you click on the specific line and a pop-up window will appear.

4.3. Acceptable antibodies

Basic info | Clinical data | Address/Phone | Waiting List | HLA Typing | Antibody Screen Test | **Acceptable Antibodies** | Previous Mismatches | Death

Antibody Summary: B+X,13,7,8;

HLA-B: [dropdown menu]

Previously determined antibodies which are no longer clinically relevant, can be specified in this tab.

Recipient information [Back] [Save] [Cancel]

Scandia Number: 950234 Nationality: DK: Denmark

Date of Birth: 01-Feb-1988 Person Number: 010288 Sex: F: Female

Surname: x First Name: x

Transplantation History: KI; LI; PA; IT; HE; LU;

Survival Status: ALIVE

Status: [] Waiting List: [] Urgency: []

First regist.: IDW 03-Mar-2015 Latest regist.: IDW 03-Mar-2015

Basic info | Clinical data | Address/Phone | Waiting List | HLA Typing | Antibody Screen Test | **Allowable Antibodies** | Previous Mismatches | Death

Antibody Summary: A19,(9);

HLA-A: [dropdown menu]

- 9
- 19

In the list of values, you can chose between all the determined antibodies. The antibodies that you select as no longer relevant will be displayed in brackets after saving data.

4.4. Previous Mismatches

Previous Mismatches				
	Series	Antigene	Acceptable mismatch	Tx. registration in SCTP
<input checked="" type="checkbox"/>	A	1	N: No	N: No
<input checked="" type="checkbox"/>	B	12	N: No	N: No

This tab contains information on HLA mismatches from previous transplantations and allows registration of missing previous mismatches.

Previous Mismatches				
	Series	Antigene	Acceptable mismatch	Tx. registration in SCTP
<input checked="" type="checkbox"/>	A	1	N: No	N: No
<input checked="" type="checkbox"/>	A	3	N: No	Y: Yes
<input checked="" type="checkbox"/>	B	37	N: No	N: No
<input checked="" type="checkbox"/>	B	40	N: No	N: No
<input type="checkbox"/>				N: No

If the previous transplantation(s) has been registered in the database and donor HLA has been filled in, HLA mismatches will automatically be calculated and displayed. In the column 'Tx. Registration in SCTP' these will be listed as Yes.

If the transplantation is not registered in the database (mainly kidney transplantations before 1st of January 1995), you can register previous mismatches manually.

A previous mismatch is as default set to not acceptable, which means that it will appear on the kidney search result list as a repeated mismatch if the donor type includes the specific HLA type. If the value in the 'Acceptable mismatch' column is changed to yes, it will not appear as a repeated mismatch on the search result list.

5. Waiting list

5.1. *Waiting list history*

Waiting list history is found under the 'Basic info' tab. Here you will find an overview of the waiting list history, sorted with the newest entry at the top.

You can click on terminated waiting list records to view read only data or you can enter a not yet terminated record to view and/or alter data.
