

User manual

Pediatric Renal Registry

1. Pediatric Renal Transplant Information

Find and enter the 'Kidney Registry' menu followed by the 'Pediatric Renal Transplant Information' menu.

Search parameters form:

Scandia number: Person-number:

Surname: First name:

Transplant center: Nationality:

ABO blood group: Rhesus: Sex:

Date of transplantation:

Scandia number	Person-number	Surname	First name	Transplant center	Nationality	ABO blood group	Date of transplant...
No data to display							

When you enter the menu the first screen gives you the possibility to search for pediatric renal transplanted recipients.

You can search on one or combine parameters.

If you do not enter any search parameters and press search or enter, you will get a list sorted by Scandia number and transplantation date.

When you have found the recipient you wish to enter data on, you click on the line containing recipient information.

Search parameters form:

Scandia number: Person-number:

Surname: First name:

Transplant center: Nationality:

ABO blood group: Rhesus: Sex:

Date of transplantation:

Scandia number	Person-number	Surname	First name	Transplant center	Nationality	ABO blood group	Date of transplant...
196		A	A	ST: Stockholm	S: Sweden	A	07-Sep-2016

2. Registration of information

Now you are able to navigate around the different tabs and register/alter data on the selected recipient.

If you have made registrations that have not been saved yet the 'save button' will be displayed in black writing. If no alterations have been made the writing will be light grey.

Some of the data is mandatory to register, if data is missing you will be reminded when saving data.

The screenshot shows a web form titled "Pediatric Renal Transplantation Information". At the top right, there are buttons for "Back", "Save", and "Reset". The form contains several input fields: "Scandia number" (196), "Person-number", "Surname", "First name", "Transplant center" (ST: Stockholm), "Nationality" (S: Sweden), and "Latest reg". Below these are tabs for "Tx information", "Renal diagnosis", "Immunosuppression", "Rejections", "Status", and "At discharge". The "Tx information" tab is active, showing fields for "Date of transpl" (07-Sep-2016), "Height" (120 cm), "Weight" (35.0 kg), "Cold ischemia time" (123 min), "Calculated cold ischemia time", "Graft placement" (EXT: Extraperitoneal), "Pre-emptive tx" (Y: Yes), and "P-Creatine at time of tx" (Y: Yes).

3. Pediatric Renal Follow Up Information

Find and enter the 'Kidney Registry' menu followed by the 'Find and enter the 'Kidney Registry' menu followed by the 'Pediatric Renal Follow up Information' menu.

The screenshot shows a web interface for searching "Pediatric Renal Follow Up Information". At the top, there are navigation menus for "Recipient", "Liver Registry", "Thorax Registry", and "Kidney Registry". A dropdown menu is open under "Kidney Registry", showing options: "Pediatric Renal Transplant Information", "Pediatric Renal Follow Up Information", "Follow up", and "Reports...". The main form has a search bar with "[Enter search parameters]". Below it are input fields for "Scandia number", "Person-number", "Surname", "First name", "Transplant center", "Country", "Blood group", "Rhesus", and "Sex". At the bottom, there is a table with columns: "Scandia number", "Person-number", "Surname", "Transplant center", "Blood group", "Date of transplantation", and "Follow up date". The table shows "Page 0 of 0" and "Order by: Date of transplantation". A message at the bottom right says "No data to display".

To find an existing follow up, you can search on one or combine parameters.

If you wish to add a follow up, you need to have the Scandia number, which you can find on previous follow ups or through the 'Pediatric Renal Follow up Information' menu.
