Nordic Thorax Transplantation Registry

Lung is used as an example

1. Thorax pre transplant

Find and enter the 'Thorax Registry' menu and enter the 'Thorax pre transplant – Lung'

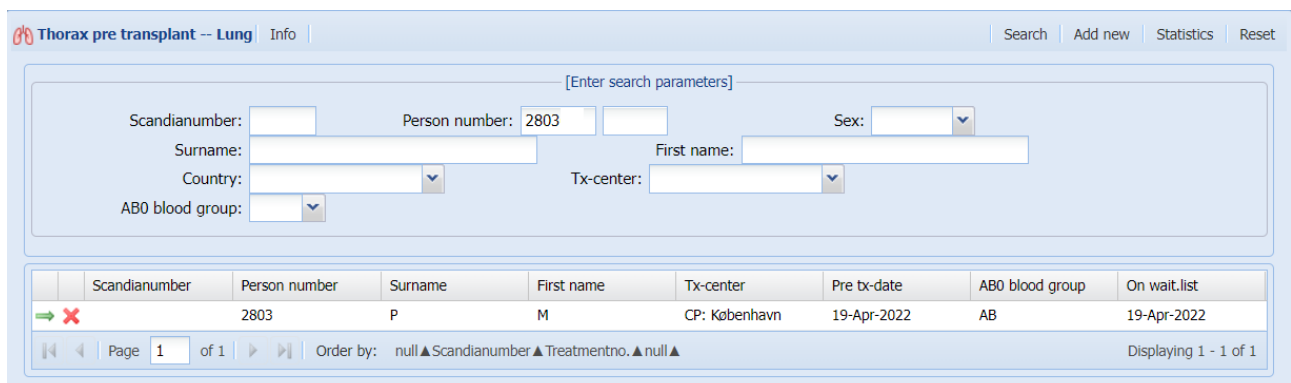

When you enter the menu, the first screen gives you the possibility to search for recipients that are or have been on the lung waiting list.

You can search on one parameter or combine parameters.

If you do not enter any search parameters and press search or enter you will get a list sorted by Scandia number with the recipients from your own country.

When you have found the recipient, you wish to enter data on, you click on the line containing recipient information.

2. Registration of information

Now you can register new data (and alter data) on the selected lung recipient.

Now and then, please click on the save button. If you have made registrations that have not been saved yet the 'save button' will be displayed in black writing. If no alterations have been made the writing will be light grey.

The screenshot shows a web form titled "Thorax pre tx -- Lung" with tabs for "Basic info", "Diagnose and status", "Medical history", "Clinical status", "Hemodynamic", and "Walk test+pulmonary func.". The "Basic info" tab is active. Fields include: Scandia number, Person number, Surname, First name, Tx-center (CP: København), Country (DK: Denmark), Last change (19-Apr-2022), and Pre-tx date (19-Apr-2022). Below these are fields for "On waiting list" (19-Apr-2022), "LU: Lung", and "Waiting for tx no: 1". Physical data includes: ABO blood group (AB), Sex (M: Male), Body weight (68.5 kg), Height (184 cm), BMI (20.23 kg/m²), Surface area (1.9 m²), Systolic blood pressure, Diastolic blood pressure, and Pulse rate. The ISHLT diagnosis is set to "1607: COPD/Emphysema".

3. Additional Pre transplant form

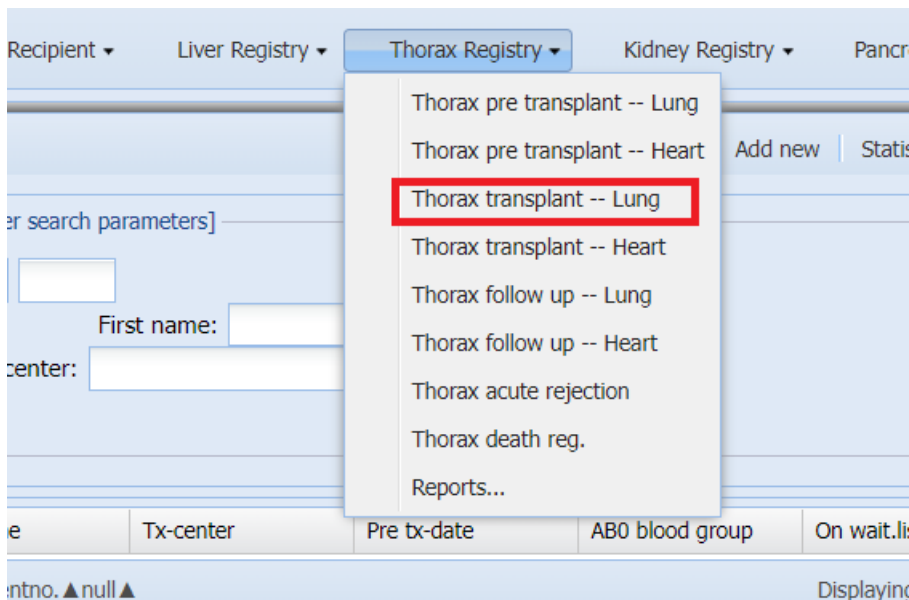

If you need an additional pre transplant form, please enter the Scandia number and click on the 'add new' button:

The screenshot shows the "Thorax pre transplant -- Lung" search interface. The "Add new" button is highlighted with a red box. The search parameters section includes: Scandia number (highlighted with a red box), Person number, Sex, Surname, First name, Country, Tx-center, and ABO blood group. Below the search fields is a table with columns: Scandia number, Person number, Surname, First name, Tx-center, Pre tx-date, ABO blood group, and On wait.list. The table shows one entry. At the bottom, there are navigation controls: Page 1 of 1, Order by: null ▲ Scandia number ▲ Treatment no. ▲ null ▲, and Displaying 1 - 4 of 4.

A new empty form will appear.

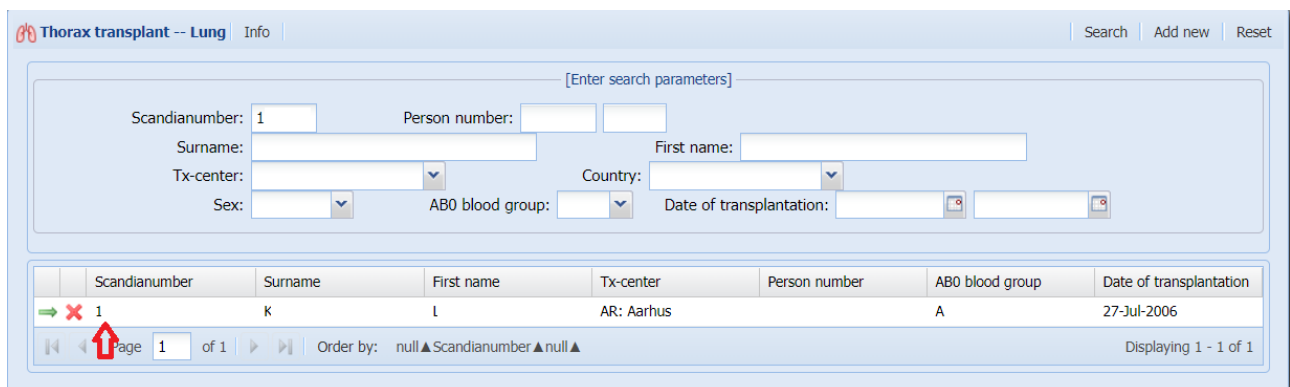

4. Thorax transplant

Find and enter the 'Thorax Registry' menu and enter the 'Thorax transplant – Lung'

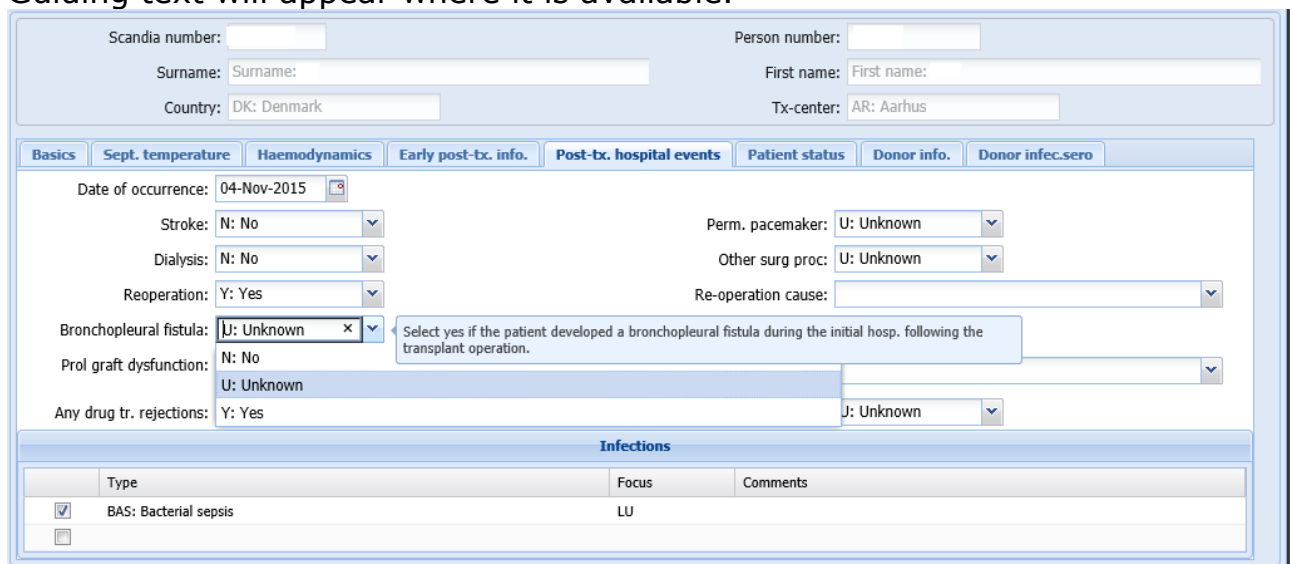

The recipients you are able to find in the 'Thorax transplant' menu have been lung transplanted in your own country.

Click on the line with the recipient you wish to add, change and/or view data on.

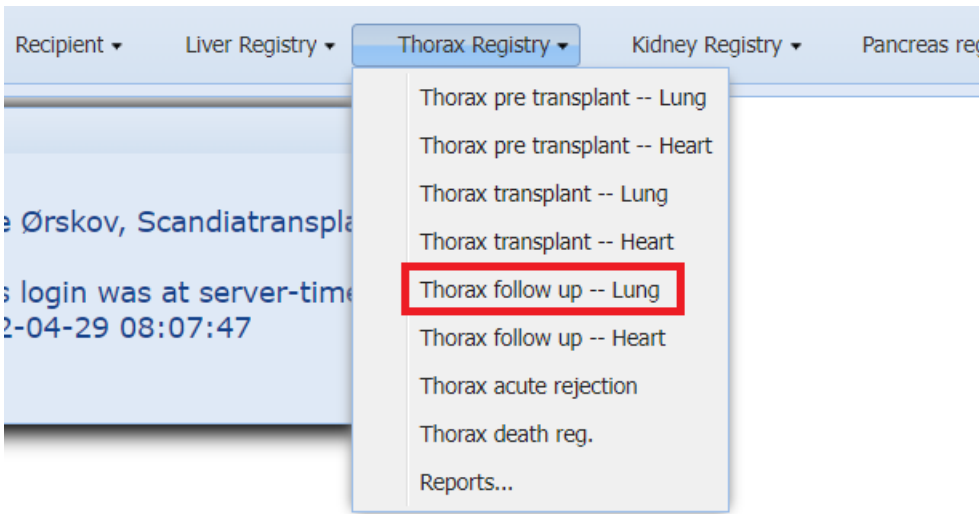

Fill in the information.
Guiding text will appear where it is available.

5. Thorax Follow-up

Find and enter the 'Thorax Registry' menu and enter the 'Thorax follow up – Lung'

Add new follow up

To add a new follow up, you need to enter the Scandia number in the 'Enter search parameters' area and clicking on the 'Add new' button.

If you do not have the Scandia number, you can find it by entering the 'Thorax transplant' menu and search on the person number.
