# Certificate for 'Fusion to YASWA' software
March 2nd 2021

The following instructions are a onetime installation procedure. Administration rights on the client is needed and maybe also help from it staff.
This will ensure that programs signed by the scandiatransplant office is trusted by the client pc and not raise warnings. Initial installation will still be an issue though.

1. **Launch the installation file of the main certificate by clicking here:** https://sc40.scandiatransplant.org/ca.crt

2. **Install the certificate on 'Local Machine'**

← Certificate Import Wizard

Welcome to the Certificate Import Wizard

This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.

A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.
